About Roca

Roca is a family-owned company dedicated to the design and production of solutions for the bathroom space. From our beginnings in Barcelona in 1917, we have grown into a global benchmark in sanitaryware. Roca is now one of the largest producers of bathroom products on the planet, operating 81 production facilities across five continents, employing over 20,000 people and serving over 170 markets.

Roca is a family-owned company dedicated to the design and production of solutions for the bathroom space. From our beginnings, we have grown into one of the largest producers of bathroom products in the world. Our designs are intuitive and intentional, driven by a philosophy of continuous improvement. Our team of experts works with leading international designers to create products that push the boundaries of innovation, refining your bathroom while bringing comfort and simplicity to your daily routine.

Despite our presence in over 170 markets, we have remained close to our Barcelona roots, contributing to and drawing inspiration from its vibrant design culture. Our products are designed for efficiency and durability, and sustainability is ingrained in everything we do - from sourcing materials to production, logistics, packaging and shipping.

Beyond our products, we address critical challenges through We Are Water foundation, promoting sustainable water management and improving access to clean water in disadvantaged communities. We are also committed to fostering talent and creativity.

Our design competitions provide opportunities for emerging designers, while our Roca Galleries and digital platform rocagallery.com host events, discussions, and feature articles on key global issues. As a leading multinational, we participate in key international events including Salone del Mobile, ISH, Expo Revestir, KBC and BDNY, sharing our values of innovation, sustainability, and teamwork.

We celebrate the small, everyday moments of domestic happiness. At the heart of our business is the desire to develop attractive and functional solutions that make people live the best bathroom experience.

We make
people live the
best bathroom
experience

Smart Toilets

Roca's smart toilets offer a range of options to suit different preferences and budgets combining cutting-edge technology, hygiene and comfort to provide users with a modern and connected bathroom experience. Personalised programme settings and easy maintenance and cleaning management can be tailored to individual needs through the Roca Connect App.

Cutting-edge technology to offer maximum hygiene and comfort in the bathroom

Technologies

Rear wash with Multi-Stream: The rear wash with Multi-Stream gives users a choice of three different rear wash modes — soft, intense or mixed — delivered through a separate outlet from the front wash, allowing for tailored cleaning to suit different preferences.

Soft front wash. This functionality uses nine different sources for perfect water distribution of water and a superior level of front cleaning.

Rear and front wash with Airtech technology

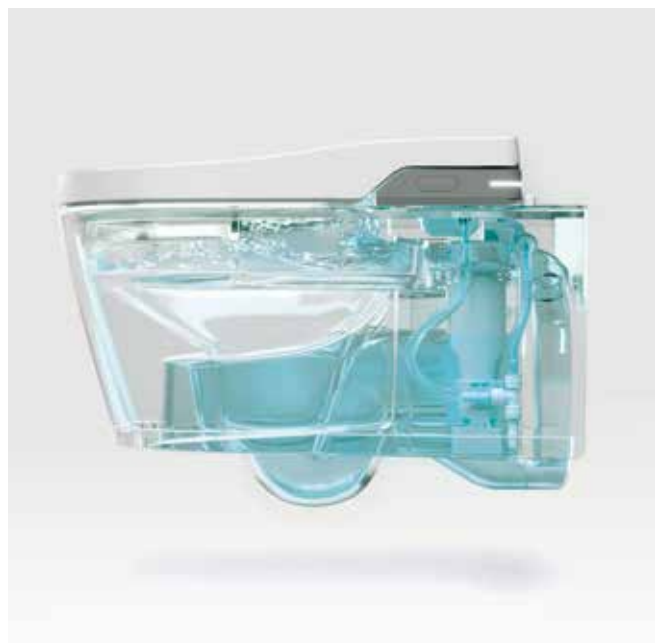

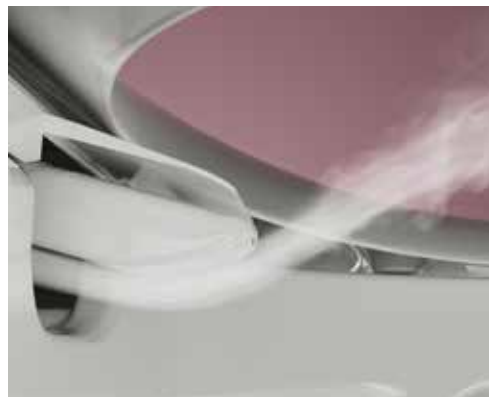

This technology ensures highly effective cleaning using advanced engineering that injects air into the water stream.

Maximum customisation. Adjustable nozzle positions, water pressure, temperature and oscillation ensure ideal water distribution for a better washing experience. These functions can be personalised and conveniently controlled. In addition, the mobile app allows for the creation of user profiles, automatic drying after washing, and the selection of washing and drying times.

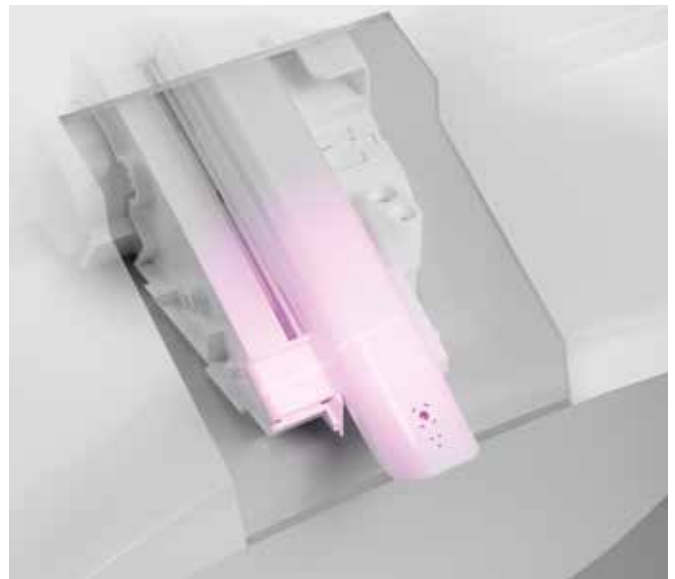

Coanda Effect Dryer. High-performance dryer with the Coanda effect, in which fluids tend to follow the surfaces. This principle was a source of inspiration in the design of the nozzle, which directs air to the precise point where it is needed. With the Coanda effect air is directed to a specific area for peak drying performance at any power level.

Heated Seat: A heat seat adds to the luxury experience by distributing heat evenly for extra comfort. Users can choose from four different temperature levels, either continuously or scheduled via the app.

In-Tank®. A notable innovation is Roca's In-Tank® technology. This ingenious design, which integrates the cistern into the toilet bowl, significantly enhances the user experience by combining practicality with advanced technology for maximum convenience. The In-Tank design is both space-saving and aesthetically pleasing. By eliminating the external ceramic cistern and flush plate, it frees up valuable bathroom space while maintaining clean, sleek lines that contribute to a modern and visually appealing look. Placing all the necessary elements in the toilet bowl and off the wall also ensures easier access, installation and maintenance. In-Tank® offers a 4.5 litre full flush that combines powerful performance with quiet operation. Unlike traditional systems where water is stored behind the wall, In-Tank's integrated design ensures reduced noise levels, without disturbing adjacent rooms.

Smart Toilets

Auto Open/Close: The automatic opening and closing of the seat and lid provides a more hygienic and comfortable experience, eliminating the need to touch the seat or lid.

Auto Flush: This feature automatically determines the appropriate flush volume, providing either a full or half flush, depending on user needs. For added hygiene and convenience, this functionality also allows the configuration of a pre-flush that activates as the user approaches, helping to maintain a clean bowl.

Auto Deodoriser: Designed to effectively remove odours and maintain a fresh bathroom environment, the automatic deodoriser uses an advanced design to maximise odour removal efficiency. To ensure that all odours are effectively neutralised, three key factors are maximised:

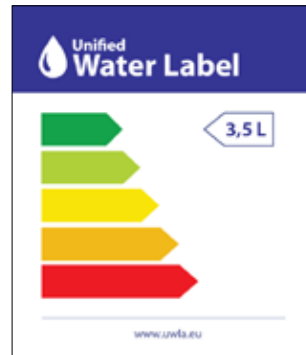

1. The contact time between the contaminated air and the carbon filter
2. The size of the filter to increase the contact area
3. The choice of a high quality, easily replaceable carbon filter with exceptional absorption capacity

Night Light: For convenient nighttime visits, the night light provides subtle illumination, with options for manual, scheduled or automatic activation.

Hygiene Flush: Roca's signature Hygiene Flush provides comprehensive cleaning and a subtle infusion of freshness through a dose of aromas released with each flush.

Roca Rimless® Vortex: This innovative design, which replaces the traditional rim of the toilet bowl with a smooth edge, allows water to flow around the edge of the bowl during flushing, rather than from the inside of the rim. This makes it easier to clean and more hygienic, eliminating the nooks and crannies where dirt and bacteria typically accumulate.

Self-cleaning nozzle with UV: The application of water before and after each use, supplemented by UV light, effectively removes 99.99% of bacteria. While water cleaning alone is sufficient, integrated UV light treatment ensures optimum nozzle disinfection.

Water Label

Many of our products are registered with the European Unified Water Label scheme, widely used across Europe to classify and promote water-efficient products. For WCs, the Unified Water Label assesses water efficiency based on the average flush volume. For dual flush systems, the average is calculated from one full flush and three reduced flushes. The rating system ranges from an average flush volume of 3.50 litres or less (Band 1), to a flush volume of more than 6 litres (Band 5).

Supraglaze®: An exclusive smooth Roca glazing for the bowl allows easy removal of any dirt particles and bacteria for greater hygiene.

Lift&Clean: Combined with Roca Rimless® technology, Lift&Clean makes it easy to remove all dirt particles, improving toilet hygiene and streamlining the cleaning process. The e-bidet can be partially detached, allowing the user to reach anywhere easily for cleaning.

Descaling: Designed for easy maintenance and extended performance, the descaling solution is easy to use and requires minimal effort. Conveniently accessible via Roca Connect within the alerts and application support framework.

Roca Connect: Users can adjust process settings, schedule maintenance, and control washing and drying functions remotely, and receive useful notifications and consumption statistics. bathroom experience.

Bathroom Collections

The design and innovation of bathroom collections that transform the everyday bathroom experience is woven into the 100-year history of Roca. A combination of traditional stoneware and high-tech innovation in ceramics generates durable and anti-bacterial surfaces with new aesthetic possibilities for different shapes and designs. Technologies like Roca Rimless® underscore the company's ongoing passion to create the best bathrooms for everyone. An extensive range of styles can be found in washbasins, toilets and bidets. Each piece is set apart by its diverse aesthetic and remarkable longevity, a key characteristic of sustainability.

Each piece is set apart by its diverse aesthetic and remarkable longevity, a key characteristic of sustainability

Key Benefits

Hygiene. Zero porosity surface that prevents the absorption of water and the proliferation of humidity and bacteria.

Quality. Made with an exclusive mineral composition, our consistent and robust pieces undergo rigorous testing and controls.

Durability. The high-quality glaze provides stability against abrasive products, extreme temperatures or ultraviolet light.

Resistance. Outstanding static resistance verified by load tests of up to 400 kg.

Technologies

Roca Rimless®

Easy cleaning. An interior bowl with no hidden nooks and crannies for dirt and germs to accumulate makes cleaning easier than ever.

Effective flush. Maximum power propels the water with more force and distributes it evenly over the entire surface ensuring a more effective hygiene, surpassing EU standards.

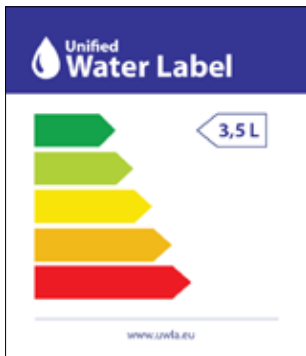

Roca Rimless® Vortex

In addition, Roca Rimless® Vortex provides an improved water flow with three extra benefits:

Maximum hygiene. An effective 360° whirlwind flush system with an enhanced water path to ensure complete coverage of every part of the bowl.

Extra silent. A smoother and more efficient water outlet reduces turbulence and noise.

No splashback. The optimised circular motion of water puts an end to splashing and considerably reduces the effect of aerosols.

Water Label

Many of our products are registered with the European Unified Water Label scheme, widely used across Europe to classify and promote water-efficient products. For WCs, the Unified Water Label assesses water efficiency based on the average flush volume. For dual flush systems, the average is calculated from one full flush and three reduced flushes. The rating system ranges from an average flush volume of 3.50 litres or less (Band 1), to a flush volume of more than 6 litres (Band 5).

A combination of
traditional stoneware
and high-tech innovation
in ceramics enables new
aesthetic possibilities

Materials

Stonex®

An innovative material made from a high-quality gel coat outer layer and a resin substrate combined with a fine selection of different mineral charges.

Hygienic. Outer layer with antibacterial properties prevents the spread of microorganisms on the surface, meeting the most stringent hygiene standards*.

Resistant. Resistant to wear and tear, chemical agents and discoloration caused by sunlight and artificial light.

Easy cleaning. Surfaces are easy to clean with water making bathroom cleaning simple.

Surfex®

Durable material. Made up of a combination of solids, resins, catalysts and promoters, obtaining a highly durable material as a result.

Warm texture. Providing a natural and pleasant sensation to the touch.

Sophisticated finish. Smooth and matt touch, the result of its mineral and resin composition.

Variety of shapes. Highly malleable material that adapts to the most varied profiles, angles and lines.

No visible joints. Surface with a homogeneous colour and a perfect finish in a matt tone, with no visible joints.

Hygienic. Zero porosity material, exclusive to Roca, that prevents the absorption of liquids and the proliferation of humidity and bacteria.

*In compliance with UNE-EN ISO

Repairable. Compact material that can be easily repaired and restored to its original appearance.

Sustainable. Composed of organic and 100% recyclable materials.

Cut to size. Easily adaptable to all types of spaces since it can be cut to size.

Fineceramic®

Lightness. Thinner walls that allow basins to be shaped with 40% less thickness.

Firmness. Innovative formulation creating parts that are 30% more resistant than conventional ceramic products.

Hygiene. 100% ceramic material with zero porosity vitrified enamel.

Durability. High resistance to abrasive products and ultraviolet light.

Supraglaze®

Supraglaze® glazing prevents the buildup of dirt, ensuring maximum hygiene and easy cleaning.

Extremely smooth Surface. Waterproof, shiny, smooth surfaces. Sustainable, less water and cleaning products.

Efficient cleaning. Allows any dirt particles to slide off and inhibits the buildup of dirt.

Avant

The One and Only

Roca has reimagined the bathroom space by introducing a cutting-edge toilet with integrated cistern that frees up valuable space. These practical functionalities result in a toilet for everyone and adaptable to any house. A step into the future with a more simplified bathroom.

An innovation by Roca, unique in the world

By ingeniously integrating the cistern, Avant embodies an innovative concept that saves space.

Thinking beyond the wall: leading the revolution in toilet design, as all the necessary elements are located in the toilet bowl, ensuring a faster installation and a significant improvement to any home.

No visible flush plate or ceramic cistern container to disturb the clean lines, creating an airy feel.

All components are easily accessible and easy to handle, particularly those related to water function, which are positioned off the walls.

The cistern is easy to access for straightforward installation and maintenance, avoiding the need to modify the wall during major repairs.

Avant's seal-less design also minimises potential leak points, increasing reliability.

Functions and Benefits

Integrated cistern: The cistern is incorporated inside the bowl, out of sight. This maximises available space and provides a modern and pleasing aesthetic.

Venturi effect: The integrated cistern uses the Venturi effect for powerful flushing, ensuring a thorough and hygienic clean in a sleek design.

With or without electrical connection: Compatible with most existing installations, Avant requires a minimum water pressure of 2 bar and a flow rate of 14 litres per minute. If the water supply does not meet the required pressure (2 bar) or flow (14 l/min), Avant-E can be installed with an electrical connection.

Roca Rimless® Vortex: A bowl specially designed to optimise water flow, flush performance, and cleaning. No splashing.

Silent flush: Reduces noise for a more comfortable user experience.

Supraglaze®: An exclusive Roca glazing that guarantees even greater hygiene, allowing any residue to slide off and preventing the accumulation of dirt and germs.

Easy control with side buttons: Discreet and intuitive flush controls make the toilet easy to use, with two flush settings to save water -4.5 or 3 litres.

Seal-free solution: All flushing systems are integrated into the toilet and are seal-free, for extra safety. This simplifies maintenance and prevents leakages.

Easy installation & Easy maintenance: Fits seamlessly into any bathroom with accessible and easily replaceable components for easy maintenance.

Quick Release & Soft Close seat and cover: The seat is stable and comfortable and closes gently with a whisper-quiet click. Both the seat and cover are easy to remove for easy cleaning.

Installation systems

Roca's installation systems are meticulously designed to seamlessly fit into any bathroom. These space-saving systems offer adaptable features and a range of solutions, including silent flush and adjustable options to ensure effortless installation. Water-saving features are core to the design of all of Roca's installation systems.

Water and energy-saving features are core to the design of all of Roca's installation systems

Key Benefits

Compact solutions. Models that allow built-in installation in spaces with minimal fixing depth.

Design. Wide range of flush plates in different colours, finishes and materials. Small operating plates are also available.

Resistance. Guaranteed static resistance of up to 400 kg.

Durability. High performance flush valve with 200,000 actuation cycles guaranteed.

Noise reduction. Features noise-reducing components.

Easy maintenance. Easy plate assembly and maintenance with convenient access to the inside of the cistern.

Versatility. Suitable for any type of installation, as it includes fixation holes for wood and metal profiles. Smart toilet solutions available.

Adjustable. Easy height adjustment with a 0-200 mm braking system. The position and angle of the outlet pipe can also be adjusted.

Water conservation. The flushing volume is easily adjusted, and various dual flush configurations and flow limiters are available.

Finishes

Matt colours. Wide range of finishes matching other products.

PVD finishes. With a physical particle vaporization process that guarantees an elegant finish.

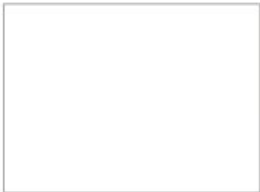

Glass. Flush plates with sophisticated glass finishes.

Wood. Oak finish to add a touch of warmth to the bathroom.

Ceramic. Black and white ceramic flush plates to match WCs, basins and bidets.

Slate or concrete. Nature's raw beauty unleashed with slate and concrete flush plates.

Duplo WC Fluxor-E (Electronic)

Built-in structure for wall-hung WC with dual flush valve and installation accessories, ø90 / ø110 elbow. Electronic and manual operation. Minimum depth of 140 mm. Installation in partition wall with uprights and/or in front of sturdy wall.

A890092200

Duplo WC Fluxor

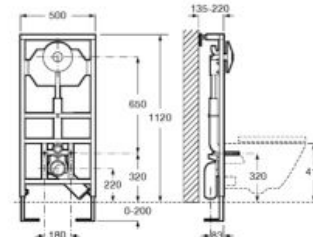

Built-in structure for wall-hung WC with dual flush valve and installation accessories. Axial distance of 180 mm. Metallic profile capable of withstanding 400 kg. Minimum depth of 140 mm. Adjustable feet from 0-200 mm with braking system. ø90 / ø110 elbow. Installation in partition wall with uprights and/or in front of sturdy wall.

A890092100

Optional:

Vandal-proof stainless steel kit for Duplo WC Fluxor.

A890065004

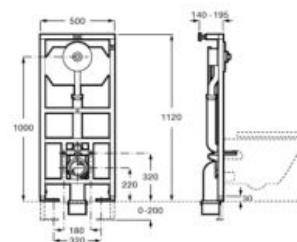

Duplo WC Fluxor Single Flush

Built-in structure for wall-hung WC with single flush valve and installation accessories. Axial distance of 180 mm. Metallic profile capable of withstanding 400 kg. Minimum depth of 140 mm. Adjustable feet from 0-200 mm with braking system. ø90 / ø110 elbow. Installation in partition wall with uprights and/or in front of sturdy wall.

A890092300

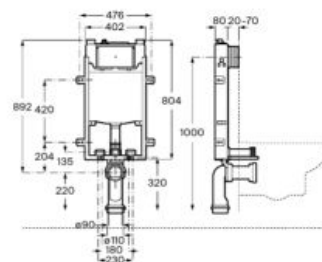

Ø6L

Basic WC One Compact

Frame with compact dual flush cistern for wall-hung WC. ø90 / ø110 elbow. Axial distance of 180 and 230 mm. Minimum depth of 90 mm. Built-in installation in sturdy wall. Top hydraulic connection. To be completed with a compatible Roca flush plate (not included).

A890070120

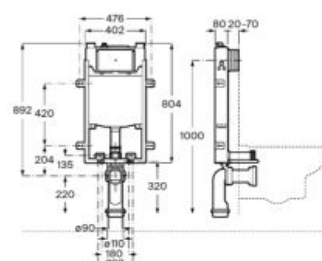

Basic WC One Compact

Frame with compact dual-flush cistern for wall-hung WC, minimum depth of 90 mm. Elbow Ø90/Ø110. Axial distance of 180 and 230 mm. Upper hydraulic connection. WRAS certified mechanisms. To be completed with a compatible Roca flush plate (not included).

A8900701A0

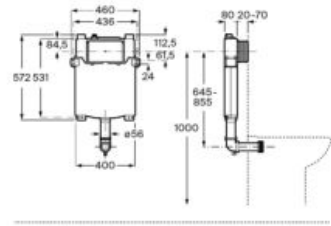

N

Basic Tank One Compact

Compact built-in cistern with dual flush for single floorstanding WC. Minimum depth of 80 mm. Installation in partition wall with uprights and/or in front of sturdy wall. Top hydraulic connection. To be completed with a compatible Roca flush plate (not included).

A890070200

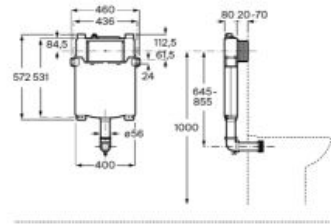

Basic Tank One Compact

Compact built-in cistern with dual flush for single floorstanding toilets, minimum depth of 80 mm. Elbow Ø90/Ø110. Upper hydraulic connection. WRAS certified mechanisms. To be completed with a compatible Roca flush plate (not included).

A8900702A0

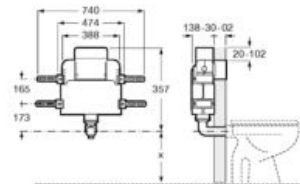

N

Basic tank Underwindow

Low height concealed cistern for single floorstanding toilets with dual flush valve and installation accessories, minimum depth of 140 mm. Side hydraulic connection. Allows front or top activation. To be completed with a compatible Roca flush plate (not included) and adaptation kit for plates.

A890121200

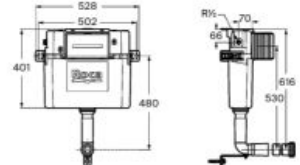

Basic Tank One Underwindow

Built-in cistern with dual flush for single floorstanding WC. Minimum depth of 140 mm. Installation in sturdy wall. Top hydraulic connection. To be completed with a compatible Roca flush plate (not included).

A890072200

N

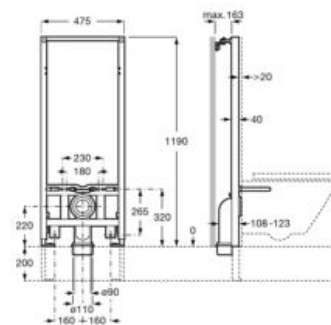

Duplo In-Tank®

Built-in structure with integrated dual flush cistern, minimum depth of 107 mm, height 1,190 mm, and elbow $\varnothing 90$ / $\varnothing 110$. Recommended for the installation of In-Tank® WCs. Installation in partition wall with uprights and/or in front of sturdy wall.

A890078100

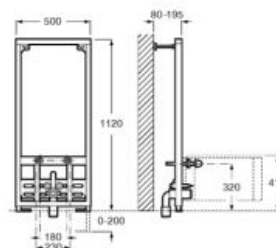

N

Duplo Bidet

Built-in structure for wall-hung bidet. Metallic profile capable of withstanding 400 kg. Minimum installation depth of 140 mm. Installation with uprights and/or in front of sturdy wall. Adjustable feet from 0-200 mm. Adjustable hydraulic connection.

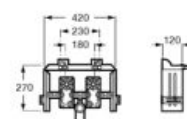

A890091200

Basic Bidet

Built-in structure for wall-hung bidet. Axial distance of 180 or 230 mm. Capable of withstanding 400 kg. Minimum installation depth of 120 mm. Built-in installation in sturdy wall. Adjustable hydraulic connection.

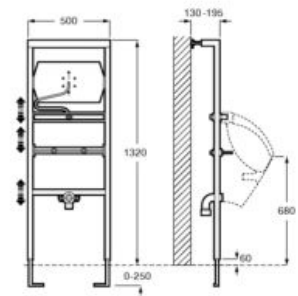

A890091100

Duplo Urinal Universal

Built-in structure for urinal. Metallic profile capable of withstanding 130 kg. Minimum installation depth of 140 mm. Installation with uprights and/or in front of sturdy wall. Adjustable feet from 0-200 mm. Height-adjustable hydraulic connection.

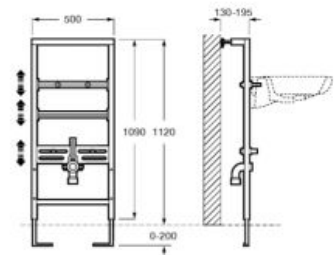

A890094100

Duplo Basin

Built-in structure for wall-hung basin. Metallic profile capable of withstanding 150 kg. Minimum installation depth of 140 mm. Installation with uprights and/or in front of sturdy wall. Adjustable feet from 0-200 mm. Adjustable hydraulic connection.

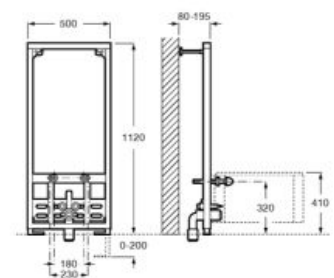

A890093000

Duplo Accessible

Built-in structure for installing a grab bar. Designed to adapt to one side of the Duplo systems. Metallic profile capable of withstanding 100 kg. Adjustable feet from 0-200 mm. To be completed with a compatible Roca flush plate (not included).

A890090600

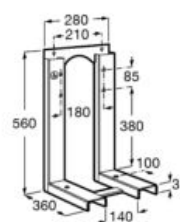

Installation Systems / Duplo One

Supporting Frame

Supporting L-Shape frame for wall-hung WC and wall-hung bidet with an axial distance of 180 mm. Steel profile capable of withstanding 400 kg. To be installed floorstanding and in solid wall.

A822091001

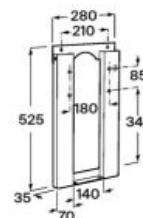

Supporting Frame

Supporting I-Shape frame for wall-hung WC and wall-hung bidet with an axial distance of 180 mm. Steel profile capable of withstanding 400 kg. To be installed floorstanding and in solid wall.

A822091021

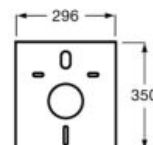

N

Silent In-Wall

Noise reduction gasket for wall-hung WC and wall-hung bidet. It prevents sound propagation of solid structures with the WC or bidet.

A890063000

Elbow

Offset elbow to install a wall-hung WC with a vertical outlet.

A892027000

Adaptation Kits

Adaptation kit for flush plates. Not valid for electronic flush plates. See compatible flush plates in "Compatible Products".

A890064000

Adaptation kit for PL3/PL5 flush plates. Not valid for electronic flush plates. See compatible flush plates in "Compatible Products".

A890064010

Extension kit

Extension kit for actuating rods and fastening plates for wall thickness greater than 70 mm and up to 150 mm.

Furniture Collections

With over 100 years of knowledge and expertise, Roca is Europe's leader in the production and manufacturing of bathroom furniture. Using new technologies and innovative designs, including proprietary finishes, quality materials, and enhanced hardware solutions, Roca's extensive catalogue of bathroom furniture transforms the look and feel of any bathroom space. Furniture units, auxiliary columns and accessories all meet the highest standards in versatility, accessibility and style, with an ongoing commitment to sustainability and social responsibility.

Transform the look and feel of your bathroom space

Key Benefits

Quality. Exquisite finishes, innovative materials and fine elements such as solid wood, marble or quartz.

Styles. Extensive catalogue of designs for every interior design project.

Resistance. High quality guides and hinges that guarantee 20,000 opening and closing cycles.

Adaptability. Diverse selection of sizes and typologies for all kinds of spaces and needs.

Broad range. Broad range of options including Unik solutions that encompass a base unit and basin, and Pack solutions featuring Unik and matching mirror.

Complementary products. Large variety of base units, basins, auxiliary units (such as column or top units), mirrors, and spotlights.

Comfort. Soft close system for drawers and doors to avoid bangs and noises.

Functionality. Fully extractable drawers allow easy access to the internal space. Drawers glide smoothly and securely.

Adjustable. High-quality door hinges enable easy adjustments in terms of height, depth, or sideways positioning. Reversible auxiliary units allow for left or right installation

Capacity. Large drawers without a cut-out for the syphon provide generous storage volume.

Order. Drawers with built-in dividers, hidden compartments and organising boxes that enable a more optimal distribution of the contents.

Mirrors and Lighting

Spotlights and mirrors with integrated lighting for a bright and balanced bathroom

Roca offers a wide range of mirrors with adjustable LED lighting in a variety of shapes and sizes for different styles. The technology allows the light intensity to be controlled. Roca's modern and energy-efficient bathroom spotlights complement the mirrors and provide the right lighting to create a relaxing atmosphere or highlight specific areas of the bathroom.

Key Benefits

Design. Ample variety of round, square or rectangular options to match any style.

Technology. Mirrors featuring lights, demister device, adjustable lighting or perimeter lighting.

Finishes. In gloss, matt or wood, a wide range of options and a broad palette of contemporary colours.

Technologies

Naturlight. Models with high-efficiency AC LED technology to provide neutral and natural light.

Efficiency. Spotlights and mirror with LED lighting to minimise energy consumption.

Touchless. Mirrors that enable the light or the demister device to be activated by means of a motion sensor.

Iconography

	Soft Close Drawers	Drawers feature a softly closing system to offer increased comfort
	LED Lighting	The product is fitted with LED lighting
	Optional Legs	The set of optional legs is suitable for thin walls

	Reversible	Possible left or right opening
	Soft Close Doors	Doors feature hinges with a softly closing system to offer increased comfort
	Adjustable Shelves	The interior shelves of the furniture can be installed at different heights

Returns are not accepted on any configurable product.

Step 1: choose the base units that will go with the unik basin or countertop

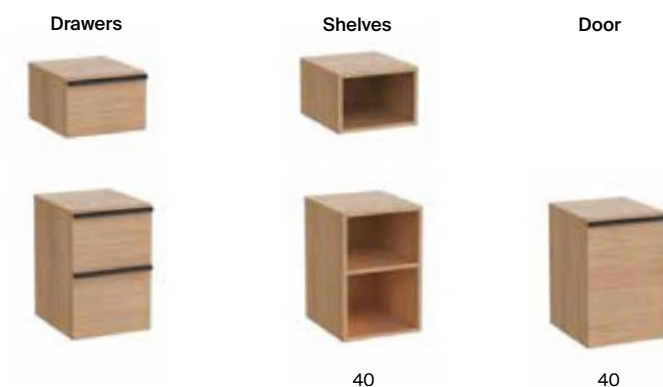

Base unit for basin or countertop with one or two drawers

Base unit 1 drawer 400	A858027...
Base unit 1 drawer 585	A858028...
Base unit 1 drawer 785	A858029...
Base unit 1 drawer 985	A858030...
Base unit 1 drawer 1185	A858031...
Base unit 2 drawers 400	A858032...
Base unit 2 drawers 585	A858033...
Base unit 2 drawers 785	A858034...
Base unit 2 drawers 985	A858035...
Base unit 2 drawers 1185	A858036...

* Only compatible with countertop.

Step 2: add more auxiliary units

Auxiliary units with one or two drawers, one or two shelves, or one door

Auxiliary unit 1 drawer 400	A858037...
Auxiliary unit 1 drawer 585	A858038...
Auxiliary unit 1 drawer 785	A858039...
Auxiliary unit 2 drawers 400	A858040...
Auxiliary unit 2 drawers 585	A858041...
Auxiliary unit 2 drawers 785	A858042...
Auxiliary unit 1 door 400	A858043...
Auxiliary unit 1 shelf 400	A858044...
Auxiliary unit 2 shelves 400	A858045...

* Customizable by configurator between 20 and 40 cm.

Step 3: Complet the set with a basin and countertop

Ona basins, compatible with a base unit

1200 x 460 mm	A32768B..0
1000 x 460 mm	A32768A..0
800 x 460 mm	A32768H..0
600 x 460 mm	A327686..0

800 x 460 mm right	A327688..0
800 x 460 mm left	A327689..0

Countertops with a thickness of 19 mm for a countertop basin. It must cover the entire set

Countertop 19 mm 410	A858066...
Countertop 19 mm 595	A858067...
Countertop 19 mm 795	A858068...
Countertop 19 mm 995	A858069...
Countertop 19 mm 1180	A858070...
Countertop 19 mm 1195	A858071...
Countertop 19 mm 1380	A858072...
Countertop 19 mm 1395	A858073...
Countertop 19 mm 1580	A858074...
Countertop 19 mm 1595	A858075...
Countertop 19 mm 1780	A858076...
Countertop 19 mm 1980	A858077...

The sizes of the countertop must be 10 mm larger than the furniture to be covered

6 mm laminated countertop in stone finishes. To be combined with Ona basin compatible to cover auxiliary modules or with countertop basins to cover the entire set

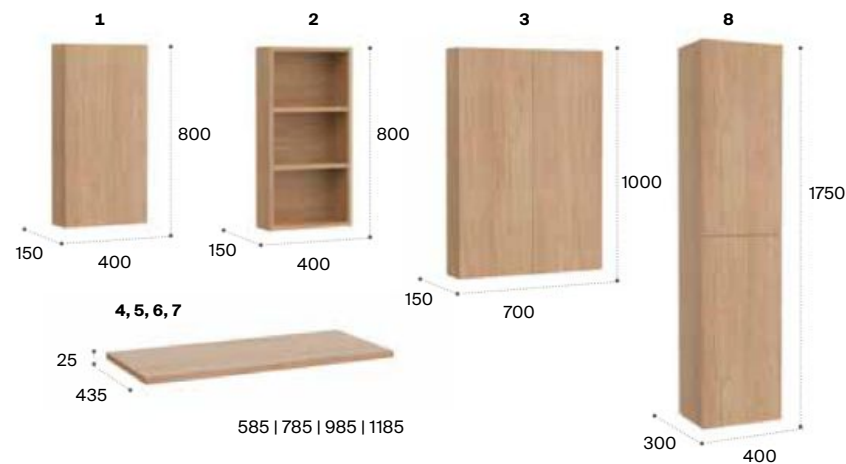

Countertop 6 mm 410	A858054...
Countertop 6 mm 595	A858055...
Countertop 6 mm 795	A858056...
Countertop 6 mm 995	A858057...
Countertop 6 mm 1180	A858058...
Countertop 6 mm 1195	A858059...
Countertop 6 mm 1380	A858060...
Countertop 6 mm 1395	A858061...
Countertop 6 mm 1580	A858062...
Countertop 6 mm 1595	A858063...
Countertop 6 mm 1780	A858064...
Countertop 6 mm 1980	A858065...

The sizes of the countertop must be 10 mm larger than the furniture to be covered

Returns are not accepted on any configurable product.

Dimensions in mm.

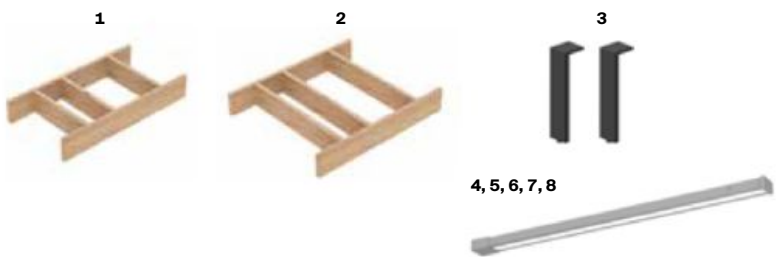

Step 4: add storage with auxiliary cabinets

Auxiliary cabinets

1. Tall cabinet 1 door 400	A858046...
2. Tall open cabinet 400	A858047...
3. Base cabinet 2 doors 700	A858049...
4. Shelf under basin 585	A858050...
5. Shelf under basin 785	A858051...
6. Shelf under basin 985	A858052...
7. Shelf under basin 1185	A858053...
8. Column 2 doors 405	A858048...

Step 5: add functionality with Verso accessories

Accessories

1. Drawer organizer 170	A817068592
2. Drawer organizer 270	A817069592
3. Set of 2 legs	A817067485
4. Drawer lighting kit 400	A817062000
5. Drawer lighting kit 585	A817063000
6. Drawer lighting kit 785	A817064000
7. Drawer lighting kit 985	A817065000
8. Drawer lighting kit 1185	A817066000

Dimensions in mm.

Replace (...) in the auxiliary cabinet reference with the code of the chosen finish: 556 Magnolia, 546 White Pine, 565 Light Elm, 509 Matt White, 510 Sand Grey, 531 Onyx, 552 Terracotta

Accessories Collections

Accessories play an important role in enhancing the daily bathroom experience

Key Benefits

Styles. Innovative design in different styles and finishes.

Versatility. Wide range of products with deck-mounted and wall-mounted models.

Dual installation. Installation kit with screws or adhesive included.

Quality. High-quality and long-lasting materials.

Stability. Stable against abrasive products, extreme temperatures, and UV light.

Quick fix system. Swift and safe installation.

Sustainable. Designed with recyclable materials, packaged, and produced with minimum environmental impact.

Evershine. Long-lasting and polished chrome plating.

Easy to clean. No specific products are required for maintenance.

Finishes

PVD Finishes. With a physical particle vaporization process that ensures an elegant, even, and scratch-resistant finish.

Painted finishes. With highly resistant polyester resins and pigments that maintain colour permanently.

Accessories are key components for a complete bathroom space. From wall-hung robe hooks to freestanding toilet roll holders or on countertop soap dishes, there are many specific items with important functions in the everyday bathroom experience. Different collections offer a variety of designs including metallic or colour finishes and embrace new materials such as wood, felt and cork, bringing a warm and tactile element to the bathroom space.

Faucets Collections

A perfect combination of precision technology and innovative design defines Roca's bathroom and kitchen faucets. Never before have there been so many possibilities – from colour, shape, finish and size – designed to appeal to a range of tastes and styles. Sustainability and safety are integrated into every faucet; non-toxic, highly resistant finishes such as Everlux PVD allow for a long life span, while energy saving systems such as Cold Start and advanced basin aerators limit and monitor water flow, giving each user peace of mind.

Sustainability
and safety are
integrated into
every faucet

Key Benefits

Durability. Exclusive ceramic cartridge, which allows a soft and precise operation, with the guarantee of one million opening and closing movements.

Water conservation. The latest generation of flow limiters offers a flow rate of 5 L/min, regardless of the pressure system, with water savings of 60%*.

Homogeneous flow. Aerators with excellent aerated jet quality, even under complex pressure conditions. They feature anti-limescale protection for easy cleaning and maintenance.

Adaptability. Five heights for basin faucets (SX, S, M, L, and XL in one piece) to provide greater user-friendliness.

Acoustic control. Sound reduction system integrated into the cartridges and faucets to limit the noise of the water.

Safety. Protective filters included in the aerators that stop any particles coming through from the mains.

Water Label

Many of our products are registered with the European Unified Water Label scheme, widely used across Europe to classify and promote water-efficient products. For WCs, the Unified Water Label assesses water efficiency based on the average flush volume. For dual flush systems, the average is calculated from one full flush and three reduced flushes. The rating system ranges from an average flush volume of 3.50 litres or less (Band 1), to a flush volume of more than 6 litres (Band 5).

Technologies

Cold Start

Energy savings. Basin models feature Cold Start, cold water opening that guarantees energy savings of 45%*.

Finishes

Evershine

A high-quality chrome outer layer guarantees a permanent shine and makes cleaning easier.

Matt finishes

Polyester thermosetting powder coating based on polyester resins, resistant to external agents, UV radiation and corrosion.

Everlux

Sophisticated. Exclusive and trendy coating that adds distinction and uniqueness to the bathroom.

Sustainable. Purely physical technique that does not require harmful chemicals or generate water pollution during its production process.

Resistant. Additional layer over the chrome plating consisting of noble and very hard metals that ensure the surface is extraordinarily resistant to scratches and cleaning products.

*Based on annual savings for a family of 4, considering 2 minutes per day of toothbrushing and handwashing 5 times a day.

A Perfect Fit

Five sizes, endless options

When it comes to selecting the perfect faucet for your bathroom or kitchen, size matters. Faucets are available in a range of sizes, each designed to suit specific needs and spaces. From the compact and space-saving XS faucets to the grand and stylish XL faucets, there is a size to cater to every requirement and aesthetic preference.

XS-Size. Compact-sized faucets suitable for use in small spaces or for single-use purposes, such as in a cloakroom.

S-Size. Small to medium-sized faucets, comfortable and appropriate for most standard bathrooms.

M-Size. Medium-sized faucets, versatile and suitable for a wide range of basin sizes. Perfect balance between functionality and style, with a higher body and longer spout.

L-Size. L-Size faucets are larger than the average faucet, with side handle and high spout. Useful for washing or filling large glasses or bowls.

XL-Size. XL faucets are the largest and most stylish type of faucets available, for use with over countertop basins.

Compatibility with different basins (basin models and basin installation types)

XL-Size
Fit for over countertop basins.

L-Size
Fit for medium / large wall-hung or countertop basins.

M-Size
Fit for standard / medium sized wall-hung or countertop basins.

S-Size
Fit for standard wall-hung, countertop or undercountertop basins.

XS-Size
Fit for compact, ultra-compact or small countertop or undercountertop basins.

Shower Solutions

Designed for any bathroom space and user needs, Roca's shower systems offer universal shower solutions. The ultimate soothing experience comes in the form of hand showers with multiple spray options or ceiling-mounted shower heads. Thermostatic mixers are designed for any type of wall and shower space, while smart shower solutions help reduce energy and water consumption and allow for programmable shower options. Elegant and modern designs, including chrome and matt black finishes on shower fixtures, add style and enhance the overall experience.

Universal
shower solutions
designed for any
bathroom space
and user needs

Technologies

Digital faucets

Mobile app. Option of programming the shower or filling the bath remotely and establishing different user profiles for a customised experience.

Intuitive use. The simple interface is intuitive and easy to understand from the very first use.

Childproof. Control system preventing children from adjusting the temperature and flow.

Efficient. Pause mode to keep the temperature stable while lathering up so as not to waste water and energy.

Disinfection. A cleaning programme that uses water at maximum temperature to eliminate germs and bacteria without the use of chemical products.

Thermostatic faucets

Quick Reaction® technology. Faucets achieve the desired temperature in just a few seconds while maintaining it consistently, saving both water and energy.

Precision. Ergonomic control that allows the user to select the temperature swiftly and precisely with a simple gesture.

Security 38°. A limiting system that prevents the temperature from exceeding 38° by default.

Safe Touch. It prevents the faucet body from overheating, avoiding burns when touching the metal parts.

Anti-scalding. If the cold-water supply is turned off, the flow of hot water will automatically cease.

Efficiency. The desired temperature is delivered almost instantly to avoid wasting water and energy.

Eco Stop button. Standard flow limiting system in the shower.

Shower Trays

An ideal solution for those looking to combine functionality and design in their bathroom. Made from high-quality materials such as Stonex® and Senceramic®, these shower trays stand out for their durability and resistance. Their non-slip surface ensures maximum safety, while their versatile and elegant design adapts to any bathroom style.

Available in a wide range of colors and sizes, Roca shower trays offer customizable options to meet all your needs. Additionally, their easy maintenance and the possibility of flush installation make them a practical and accessible choice.

Key tray features include slip-resistant surfaces, durable coatings for wear and tear and easy cleaning

Baths

The right bath can become the centrepiece of any bathroom space. A place to disconnect, soak and rejuvenate, baths need to be both ergonomic and elegant, whether freestanding or inset. Roca offers a wide selection of baths available in classic, vintage or modern designs. These baths are crafted using a variety of materials, including cutting-edge components that enable slimmer and more curvilinear shapes. Additionally, they incorporate advanced features to enhance hygiene and ensure increased safety.

A place to
disconnect, soak
and rejuvenate,
baths need to be
both ergonomic and
elegant

Tura freestanding bath, Ona floorstanding bath-shower mixer.

Hydromassage Systems

Hydromassage Systems

Basic

Continuous water massage. Pneumatic push button.

The Basic system consists of an On/Off water hydromassage function controlled by a pneumatic push button.

This system includes lateral adjustable jets that provide a continuous water massage.

Tonic

Invigorating water massage. Electronic push button.

The Tonic system features a water hydromassage that can be adjusted by means of a power-regulating push button.

This system is equipped with lateral adjustable jets to ensure a continuous water massage.

Total

Invigorating water massage and relaxing air massage. Electronic digital panel.

The Total system features a water-air hydromassage managed by an LCD digital panel, with a range of massage programmes, including continuous or pulsating options, and an electronic Venturi function. This system incorporates lateral, back and feet jets, as well as air jets positioned at the base of the bath.

All of these jets can be adjusted through the digital panel. The system is also equipped with temperature and level sensors to guarantee optimal bath performance.

Hydromassage Functions

Water massage

The water massage is delivered through jets that release a mixture of water and air, creating a toning effect on our bodies. The intensity of the jets can be adjusted using a manual or electronic Venturi function, depending on the system, allowing for customised water pressure, with a softer or more invigorating experience.

Lateral massage: Adjustable jets located on the side of the bath.

Foot massage: Specific for feet.

Back massage: Specific for the back.

Air massage

This massage is performed using bubbles that are released through small jets positioned at the base of the bath. An air massage is softer and more relaxing than a water massage. The intensity of the bubbles can also be adjusted using various control options. Two different technologies are available

Air jets and Soft jets

Customization

Some systems allow users to personalise their massage session by creating programmes that align with their individual needs and preferences, enabling quick and easy customisation.

Self-cleaning

In small quantities, ozone generates a cleansing effect throughout the entire hydromassage system, guaranteeing a clean and hygienic experience every time it is used.

Control Panels

Pneumatic push button

Available in the Basic version. Pneumatic push button to activate and deactivate the hydromassage.

Electronic push button

Available in the TONIC version. Electronic push button to activate and deactivate the hydromassage. The Venturi function (intensity regulation) is activated by turning the push button. The illuminated Roca logo signals massage activation.

Digital panel

Available in the TOTAL versions. Digital panel with LCD screen. Menu navigation with three buttons that allow users to activate, deactivate, change, and adjust the various functions.

Types of Jets

Adjustable lateral ø 50 mm water jet

Lateral jet that can be adjusted to alter the direction of the water. This allows the massage to be adapted to the needs and preferences of each user.

Rotating back ø 32 mm water jet

The back jet has a rotating function that performs a gentle massage, specially designed for the back area.

ø 32 mm foot jet

The foot jet features a microjet designed with minimum dimensions to ensure a gentle massage on the soles of the feet.

ø 27 mm air jet

Air jets have been redesigned, featuring a more oval and flatter shape. This new design enhances comfort and improves overall cleaning efficiency.

Soft jet

Soft jets combine the effect of air and water to create champagne-like bubbles from the base of the bath.

The plasticity of the blend of resins, minerals and pigments used in this material is key to designing original baths with innovative features.

Shower Enclosures

Simple design details, such as an integrated towel rail or an optional shelf, consider everyday needs

Key Benefits

Resistance. Corrosion resistance verified with 200 hours of testing in a saline mist environment.

Easy cleaning. Door release system to make cleaning between glass panels easier.

Durability. Proven mechanical resistance with 20,000 opening and closing cycles guaranteed.

Maxiclean®. Exclusive treatment that repels water, avoids limescale and the buildup of dirt, making cleaning easier.

Safety. Tempered glass that shatters into small, harmless pieces in the event of breakage, reducing the risk of accidents.

Easy to install. Models with dual installation options and a high-quality adhesive system that simplifies installation, eliminating the need to drill into the wall.

Adaptability. A compensation system allows the shower enclosure to adapt to wall irregularities, with an optional brace support to the ceiling.

With made-to-measure or standard-sized shower enclosures, it's easy to find the right solution for any shower space. Whether the bathroom is spacious or compact, there are options for any type of installation, all available in polished silver and, depending on the collection, in matt silver, white, matt black and brushed matt black. Simple design details, such as an integrated towel rail or an optional shelf, consider everyday needs Roca shower enclosures are designed to resist corrosion and prevent the build-up of limescale.

Shopping Guide

When choosing the right shower screen, various aspects must be taken into account. It is necessary to analyze the available space, determine who will use the shower, and ensure easy access for all users. Each of the following factors plays a decisive role in designing the perfect shower space.

Type of space

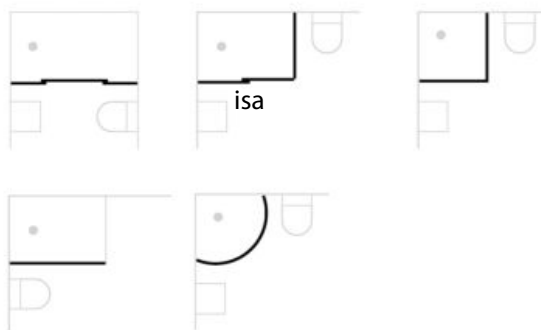

Type of shower tray or bathtub

Shower tray

Bath

Access to the shower space

Users

When choosing a shower screen, it is important to consider the ease of access and opening, both in terms of the available space and the needs of those who will use the shower.

Naray

With a minimalist design and effortless installation, this collection of sliding shower enclosures, featuring no lower profiles, now includes new details that enhance its personality and appeal.

Glass finishes

Clear glass

Profil finishes

Polished Silver

Matt Black

Key Benefits

Standard shower screens for sliding doors.
 No bottom guide profile.
 Reversible.
 Profile finish in Polished Silver or Matt Black.
 Glass thickness: 6 mm.
 Height: 2000 mm.
 Maxiclean treatment included as standard.
 100 mm adjustment.
 Hidden bearings.
 Door release mechanism.
 Anti-Roll System.
 Easy installation system.
 Dual installation system (screws or adhesive).
 Integrated hook.

Iconography

	Thickness	Glass thickness
	Reversible	Possible left or right opening
	MaxiClean®	Shower enclosure with MaxiClean® treatment, which repels water, preventing the buildup of limescale and dirt on the screen
	Watertightness	Balance between design and functionality, with possible splash occurrence
	Door release	Mechanism that releases the doors from the lower bracket to facilitate cleaning between the glass panels
	Dual Installation	Dual installation, with screws or adhesive
	Tempered glass	It offers greater resistance and safety, increasing durability against impacts and thermal stress
	Anti-Roll System	System that ensures the stability of the shower screen, preventing it from coming off the rails

Victoria

With a simple and modern design this collection of sliding shower enclosures can be adapted to an endless number of bathroom layouts.

Glass finishes

Clear glass

Profil finishes

Polished Silver

Key Benefits

Standard shower screens for sliding doors.

Reversible.

Profile finish in Polished Silver.

Glass thickness 6 mm.

Height 1950 mm.

25 mm adjustment per side.

Anti-tip system.

Iconography

	Thickness	Glass thickness
	Reversible	Possible left or right opening
	Watertightness	Optimal sealing that minimizes water dispersion and splash formation
	Tempered glass	It offers greater resistance and safety, increasing durability against impacts and thermal stress
	Anti-Roll System	System that ensures the stability of the shower screen, preventing it from coming off the rails

Specific Uses

Designing products with all users in mind, both for public and private spaces, is an integral part of Roca's mission. Using the Clear Code Architecture® method designed by PMMT architecture studio, Roca can improve certain designs to fit universal accessibility guidelines. Beyond products, the Roca App builds more connections between users and products and creates greater user satisfaction. More knowledge about water use, energy consumption, maintenance and installation gives users peace of mind.

Designing
products with all
users in mind is
an integral part of
Roca's mission

Water Label

Many of our products are registered with the European Unified Water Label scheme, widely used across Europe to classify and promote water-efficient products. For WCs, the Unified Water Label assesses water efficiency based on the average flush volume. For dual flush systems, the average is calculated from one full flush and three reduced flushes. The rating system ranges from an average flush volume of 3.50 litres or less (Band 1), to a flush volume of more than 6 litres (Band 5).

Key Benefits

Accessibility

Security. Anti-slip and electrically insulating materials, combined with robust installation systems, guarantee secure attachment and maximum safety.

Certified quality. Products are subjected to rigorous approval processes to meet the highest safety and resistance standards.

Durability. Maximum resistance to corrosion, cleaning products, and wear and tear.

Communities

Water conservation. Extensive catalogue of electronic and self-closing faucets to adapt to different styles and needs.

Cut to size. Surfex® basins that adapt to all kinds of dimensions and design requirements.

Resistance. High-quality materials that guarantee the durability and perfect condition of the products over time.

Iconography

	x / x litres. Dual flush mechanism	WCs equipped with a water-saving mechanism, with two available flush options: 6/3, 4.5/3 or 4/2 litres
	Soft-closing seat and cover	System that softens the descent of the seat and cover, preventing unnecessary discomfort and jolts
	Roca Rimless®	System designed to optimize cleaning and hygiene, exceeding EU hygiene standards
	Multiclean® Compatible	WCs compatible with Multiclean®
	Reduced Mobility	Product adapted to users with reduced mobility
	Extra Height	WCs and bidets with a height of 42 cm for additional comfort
	Duplo installation system	Easy and safe installation of wall-hung WCs
	Public Spaces	Specific product for public spaces
	Antibacterial	Antibacterial treatment

	Softurn	Smooth and controlled operation thanks to Roca's ceramic cartridges
	Evershine	A high-quality chrome outer layer guarantees permanent shine and makes cleaning easier
	Aenor	Spanish Quality Certificate awarded by AENOR (Spanish Association for Standardisation and Certification) in compliance with the requirements of the relevant Spanish UNE and European EN Standards
	Touchless	Touchless operation
	WCs Water Label	3,75 L
	Faucets Water Label	5 l/min
	Faucets Water Label	6,3 l/min
	Faucets Water Label	8 l/min

Specific Uses / Waste Macerator and High WC Cisterns

D-Trit

Waste macerator equipped with stainless steel drum filter and rotating blades. High performance and low noise level. Compatible with 22, 28, 32 and 40-mm discharge pipes. Suitable for disposing of wastewater with organic waste and toilet paper. Do not use it with any other waste.

The ideal solution for wastewater disposal from any location. It features three inlets to collect wastewater from toilet, bidet, washbasin or shower tray. It macerates and pumps it up to 6 metres high to the nearest downward-flowing sewer. Compact in design, it is a waste macerator compatible with most standard close-coupled toilets with a horizontal outlet (please check compatibilities). D-Trit, which complies with applicable electrical safety regulations, is powered by a conventional mains socket.

A869000000

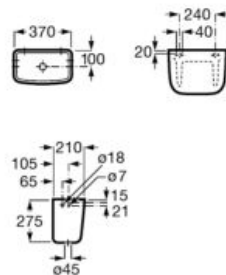

Universal

WC high cistern without cover.

A343900001

Finishes:

00

Universal

High/semi-high plastic cistern with 6/3L dual flush for single floorstanding WC. Includes chain for high installation and dual flush push-button for medium-height installation. Pipe ref. A890200001 required for high installation.

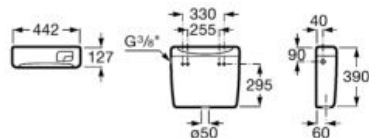

A890200000

Pipe for high installation.

A890200001

Finishes:

Kitchen Sinks

Crafted from high-quality materials, Roca kitchen sinks come in a variety of designs and sizes

Roca has created a range of kitchen sinks using high-quality materials and finishes. The kitchen is the heart of the home, a place where people gather and connections are made. With a commitment to excellence in manufacturing and design, Roca has created a range of kitchen sinks using high-quality materials and finishes. These sinks come in a variety of colours and modern designs to improve daily routines and enhance a welcoming atmosphere at home. Whether they are made with stoneware, stainless steel or Roca's innovative Quarzex®, these kitchen sinks are durable, heat resistant, and exceptionally hygienic.

Materials

Quarzex®

Hygiene. Zero porosity textured surface that prevents the absorption of water and the proliferation of humidity and bacteria.

Easy cleaning. Effortless maintenance with standard cleaning products.

Resistance. Very resistant to knocks, scratches, abrasion, and high temperatures of up to 180° C.

Durability. High-quality natural pigments that maintain their colour when exposed to chemicals and ultraviolet light.

Texture. Its natural composition makes it warm and pleasant to the touch.

Stainless Steel

Hygiene. Zero porosity surface that prevents the absorption of water and the proliferation of humidity and bacteria.

Easy cleaning. Effortless maintenance with standard cleaning products.

Resistance. Ability to withstand temperatures of up to 300 °C and resistance to blows and knocks.

Durability. High chromium content that ensures it remains unalterable against corrosion and oxidation.

Trendy. Exceptional malleability for use in a wide variety of sizes and shapes.

Fireclay

Hygiene. Zero porosity vitrified enamel that prevents the absorption of water and the proliferation of humidity and bacteria.

Easy cleaning. Smooth surface for effortless maintenance with standard cleaning products.

Durability. Corrosion-resistant parts that maintain their shine over time.

Fireclay

A rigorous, high-quality enamelling process and an exclusive formulation of feldspar, silicon and clay help create classic sinks with revamped designs.

Finishes

00
Glossy White

Key Benefits

Hygiene. Zero porosity vitrified enamel that prevents the absorption of water and the proliferation of humidity and bacteria.

Easy cleaning. Smooth surface for effortless maintenance with standard cleaning products.

Durability. Corrosion-resistant parts that maintain their shine over time.

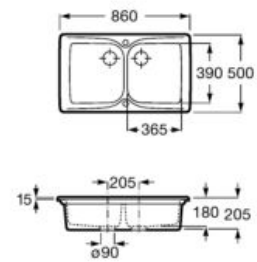

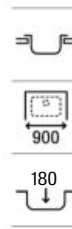

Iconography

	Cabinet width	Minimum kitchen cabinet size required for sink installation
	Bowl depth	Bowl depth: Space needed for food preparation, washing and rinsing tasks
	Over Countertop	Over countertop installation: easy installation by placing the kitchen sink directly on the countertop without requiring precise worktop cut-out
	Reversible	Suitable for left or right installation

Kitchen Faucets

Roca's line of kitchen faucets comes in a variety of styles, shapes and colours that enhance the design of the kitchen while also providing better performance through energy-saving features. Ergonomic designs and versatile functions combined with electrolytic coatings for perfected matt or glossy surfaces reflect Roca's high standards and attention to detail. Innovative features include the Cold Start system and the use of ceramic cartridges. Subtle yet essential features including soft movement, steady flow aerators and low noise applications provide pleasant everyday experiences and long-term satisfaction.

Subtle yet essential features provide pleasant everyday experiences and long-term satisfaction

Key Benefits

Wide range. Variety of styles and configurations for all kitchen needs and styles.

Pull-out spout. Pull-out sprayer with two functions: laminar splash-free function and spray function.

Shower function. Models with shower function for a more effective and efficient rinse.

Cold start. Cold opening that guarantees energy savings up to 35%*.

Durability. All models feature Roca's exclusive ceramic cartridge, which allows a soft and precise operation, with the guarantee of one million opening and closing movements.

*Based on annual savings for a family of 4, considering 2 minutes per day of toothbrushing and handwashing 5 times a day.

Finishes

Evershine. Electrolytic coating guarantees permanent shine over time and makes cleaning easier.

Everlux. Physical vapor deposition (PVD) process, ensuring a perfectly even finish.

Matt finishes. Polyester thermosetting powder coating based on polyester resins.

Water Label

Many of our products are registered with the European Unified Water Label scheme, widely used across Europe to classify and promote water-efficient products. For WCs, the Unified Water Label assesses water efficiency based on the average flush volume. For dual flush systems, the average is calculated from one full flush and three reduced flushes. The rating system ranges from an average flush volume of 3.50 litres or less (Band 1), to a flush volume of more than 6 litres (Band 5).

Aquafy

Filtered Water Faucets

Roca's kitchen filtration systems provide a safe, convenient, and sustainable solution for better-tasting drinking water. Easy to install under the sink, the collection offers a range of faucets in three designs and three finishes, all featuring a five-stage filter. An LED light indicates when the filter needs replacement.

Removes impurities, limescale and chlorine, improving the taste of your water

Healthy

High-quality drinking water, free from chlorine taste and odour.

Ecological

A sustainable alternative to plastic bottles.

Instantly

Healthy water directly from the faucet with a simple turn of the left handle.

Economical

Each filter cartridge has a filtration capacity of 1,200 litres of water.

Easy to maintain

The filter cartridge can be replaced in less than 10 seconds.

Ideal for cooking

Cleaner water free of substances such as chlorine that can alter the taste of food.

5-Stage Filtration System

5

Fine Filtration

Reduces fine particles.

3

Membrane Filtration

Eliminates particles, bacteria, viruses, and heavy metals.

1

High Performance Ion Exchange Unit

Removes limescale and other substances to soften the water.

4

Activated Carbon Block Filtration

Removes impurities such as colour, odour, residual chlorine, and volatile organic compounds, including disinfectant by-products.

2

Sediment Filtration

Captures solid impurities such as small particles, sediment, and rust.
