# About Roca

Roca is a family-owned company dedicated to the design and production of solutions for the bathroom space. From our beginnings in Barcelona in 1917, we have grown into a global benchmark in sanitaryware. Roca is now one of the largest producers of bathroom products on the planet, operating 76 production facilities across five continents, employing over 21,000 people and serving over 170 markets.

Barcelona  
Since 1917  
76 Production  
facilities  
5 Continents  
21,000 People  
170 Markets

Our designs are intuitive and intentional. Our philosophy is one of perpetual improvement, and we constantly seek to improve our product experience. Drawing on the knowledge and expertise of our global network, as well as over 100 years of experience in the sector, we develop innovative solutions that refine your bathroom while bringing comfort and simplicity to your daily routine.

Design is ingrained in everything we do. Our team of experts, often through collaborations with some of the world's leading designers, consistently create products and collections that drive innovation in the sector. These teams, along with our cutting-edge facilities, manufacturing prowess and exceptional

production capacity, have allowed us to maintain our position of global leadership for more than a century. Even while achieving a presence in over 170 markets across the world, we have remained close to our roots. From the beginning, we have been active participants in Barcelona's design culture, where forward-thinking ideas and vernacular styles go hand-in-hand to create natural, intuitive solutions that enhance daily living. We will continue both to draw from and contribute to this community.

We recognise that our position of global leadership comes with responsibility. We seek to set the standard in sustainability at every step of the manufacturing process: from the acquisition

of materials, through to production, logistics, packing and shipping. We design our products with sustainability and efficiency in mind, from toilets that minimise water consumption to furniture made with wood sourced from responsibly-managed forests.

We also carry out projects that help address some of the most pressing global challenges of our time. To this end, our foundation We Are Water works to promote a culture of sustainable, responsible water management, and to provide safe, reliable access to clean water in some of the most disadvantaged communities across the globe.

Our commitment to the planet extends into the social field. We are serious about our responsibility towards our employees and the communities we serve. Our aim of improving people's lives both

within and outside the company has led us to promote initiatives that foster talent and improve the customer experience. We organise design competitions, such as the [jumpthegap®](#) and the One Day Design Challenge, which provide opportunities for emerging designers to showcase their creativity and expand their professional networks. And through our six international Roca Galleries, and web platform [rocagallery.com](#), we host events, talks and articles which foster dialogue around some of the planet's most important issues.

We celebrate the small, daily moments of domestic happiness. The bathroom is an intimate space of self-care which can enhance users' daily lives. At the heart of our business is the desire to develop attractive and functional solutions that contribute to improved wellbeing and better standards of living.

We make  
people live the  
best bathroom  
experience

# Smart Toilets

Roca's smart toilets offer a range of options to suit different preferences and budgets combining cutting-edge technology, hygiene and comfort to provide users with a modern and connected bathroom experience. Personalised programme settings and easy maintenance and cleaning management can be tailored to individual needs through the Roca Connect App.

Combining  
cutting-edge  
technology  
with maximum  
hygiene and  
comfort

## Technologies

---

### In-Wash®

**Complete wash.** Built-in retractable nozzle that directs the water to the most intimate parts, guaranteeing a comprehensive cleanse.

**Customizable.** The position of the nozzle, the water and air pressure, and the temperature can all be regulated and adjusted.

**Easy and Total Control.** Mobile app, remote control and side panel to control the functions.

**Cleaning.** Automatic cleaning of nozzle before and after each use, and water filter that removes waste and impurities. The detachable nozzle ensures effortless cleaning and maintenance.

**Easy assembly.** Straightforward installation with a standard utilities connections.

**Coanda effect.** High-performance drying in which fluids tend to follow the surfaces. The design of the nozzle directs air to the precise point where it is needed for peak drying performance at any power level.

**Multi-Stream.** Different rear wash modes to suit individual preferences.

**Hygiene Flush.** A distinctive feature by Roca, combining thorough cleaning with subtle aromatization. With every flush, a refreshing fragrance is released.

### Roca Rimless® Vortex

**Maximum hygiene.** A real rimless solution with a powerful 360° flush exceeding EU hygiene standards. A design that facilitates cleaning with minimal water consumption.

### In-Tank®

**Space-saving.** In-Tank® technology, a signature innovation by Roca, where the water tank is integrated in the bowl, maximising available space, unifying aesthetics and practicality in the bathroom.

## Materials

---

**Supraglaze®.** An exclusive Roca glazing which guarantees even greater hygiene as any dirt particles and bacteria are more easily removed.

# Bathroom Collections

The design and innovation of bathroom collections that transform the everyday bathroom experience is woven into the 100-year history of Roca. A combination of traditional stoneware and high-tech innovation in ceramics generate durable and anti-bacterial surfaces with new aesthetic possibilities for different shapes and designs. Technologies such as Roca Rimless® underscore the company's ongoing passion to create the best bathrooms for everyone. An extensive range of styles can be found in washbasins, toilets and bidets. Each piece is set apart by their diverse aesthetic and remarkable longevity, a key characteristic of sustainability.

## Key Benefits

---

**Hygiene.** Zero porosity surface that prevents the absorption of water and the proliferation of humidity and bacteria.

**Quality.** Made with an exclusive mineral composition, our consistent and robust pieces undergo rigorous testing and controls.

**Durability.** The high-quality glaze provides stability against abrasive products, extreme temperatures or ultraviolet light.

**Resistance.** Solid and robust, with outstanding static resistance verified by load tests of up to 400 kg.

## Technologies

---

### Roca Rimless®

**Easy cleaning.** An interior bowl with no hidden nooks and crannies for dirt and germs to accumulate makes cleaning easier than ever.

**Effective flush.** Maximum power propels the water with more force and distributes it evenly over the entire surface ensuring a more effective hygiene, surpassing EU standards.

### Roca Rimless® Vortex

In addition, Roca Rimless® Vortex features an improved water flow with three extra benefits:

**Maximum hygiene.** An effective 360° whirlwind flush system with an enhanced water path to ensure complete coverage of every part of the bowl up to four times.

**Extra silent.** A smoother and more efficient water outlet reduces turbulence and noise.

**No splashback.** The optimised circular motion of water puts an end to splashing and considerably reduces the effect of aerosols.

Each piece is set apart by their diverse aesthetic and remarkable longevity, a key characteristic of sustainability

A combination of traditional stoneware and high-tech innovations in ceramics enable new aesthetic possibilities

## Materials

---

### Surfex®

**Durable material.** Made up of a combination of solids, resins, catalysts and promoters, obtaining a highly durable material as a result.

**Warm texture.** Providing a natural and pleasant sensation to the touch.

**Sophisticated finish.** Smooth and matt touch, the result of its mineral and resin composition.

**Variety of shapes.** Highly malleable material that adapts to the most varied profiles, angles and lines.

**No visible joints.** Surface with a homogeneous colour and a perfect finish in a matt tone, with no visible joints.

**Hygienic.** Zero porosity material, exclusive to Roca, that prevents the absorption of liquids and the proliferation of humidity and bacteria.

**Repairable.** Compact material that can be easily repaired and restored to its original appearance.

**Sustainable.** Composed of organic and 100% recyclable materials.

**Cut to size.** Easily adaptable to all types of spaces since it can be cut to size.

### Supralit®

**Hygienic.** Zero porosity surface that prevents the absorption of liquids and the proliferation of humidity and bacteria.

**Easy cleaning.** Seats free of corners where dirt can accumulate, making maintenance easier.

**Resistance.** Exclusive formulation highly resistant to chemicals and ultraviolet light.

**Sustainable.** Supralit® seats contribute to reducing the environmental impact thanks to the 47% recycled material of plant origin used in their composition.

### Fineceramic®

**Lightness.** Thinner walls that allow basins to be shaped with 40% less thickness.

**Firmness.** Innovative formulation creating parts that are 30% more resistant than conventional ceramic products.

**Hygiene.** 100% ceramic material with zero porosity vitrified enamel.

**Durability.** High resistance to abrasive products and ultraviolet light.

### Supraglaze®

**Antimicrobial.** Super smooth surface of this antimicrobial glazing prevents the spread of viruses and growth of bacteria.

**Extremely smooth Surface.** Waterproof, shiny, smooth surfaces. Sustainable, less water and cleaning products.

**Efficient cleaning.** Allows any dirt particles to slide off and inhibits the buildup of dirt.

# Installation systems

Roca's installation systems are meticulously designed to seamlessly fit into any bathroom. These space-saving systems offer adaptable features and a range of solutions, including silent flush and adjustable options to ensure effortless installation. Water-saving is core to the design of all of Roca's installation systems.

Water and energy-saving features are core to the design of all of Roca's installation systems

## Key Benefits

---

**Compact solutions.** Models that allow wall installation in spaces with a low fastening depth.

**Resistance.** Guaranteed static resistance of up to 400 kg.

**Durability.** High performance flush valve with 200,000 actuation cycles guaranteed.

**Noise reduction.** Features noise-reducing components.

**Easy maintenance.** Easy plate assembly and maintenance with convenient access to the inside of the cistern.

**Versatility.** For any type of installation, including fixation holes for wood and metal profiles. Smart toilet solutions available.

**Adjustable.** Easy height adjustment with a 0-200 mm brake system. Position and angle of outlet pipe can also be adjusted.

**Water saving.** Flushing volume is easily adjusted, various dual flush configurations and flow restrictors available.

## Finishes

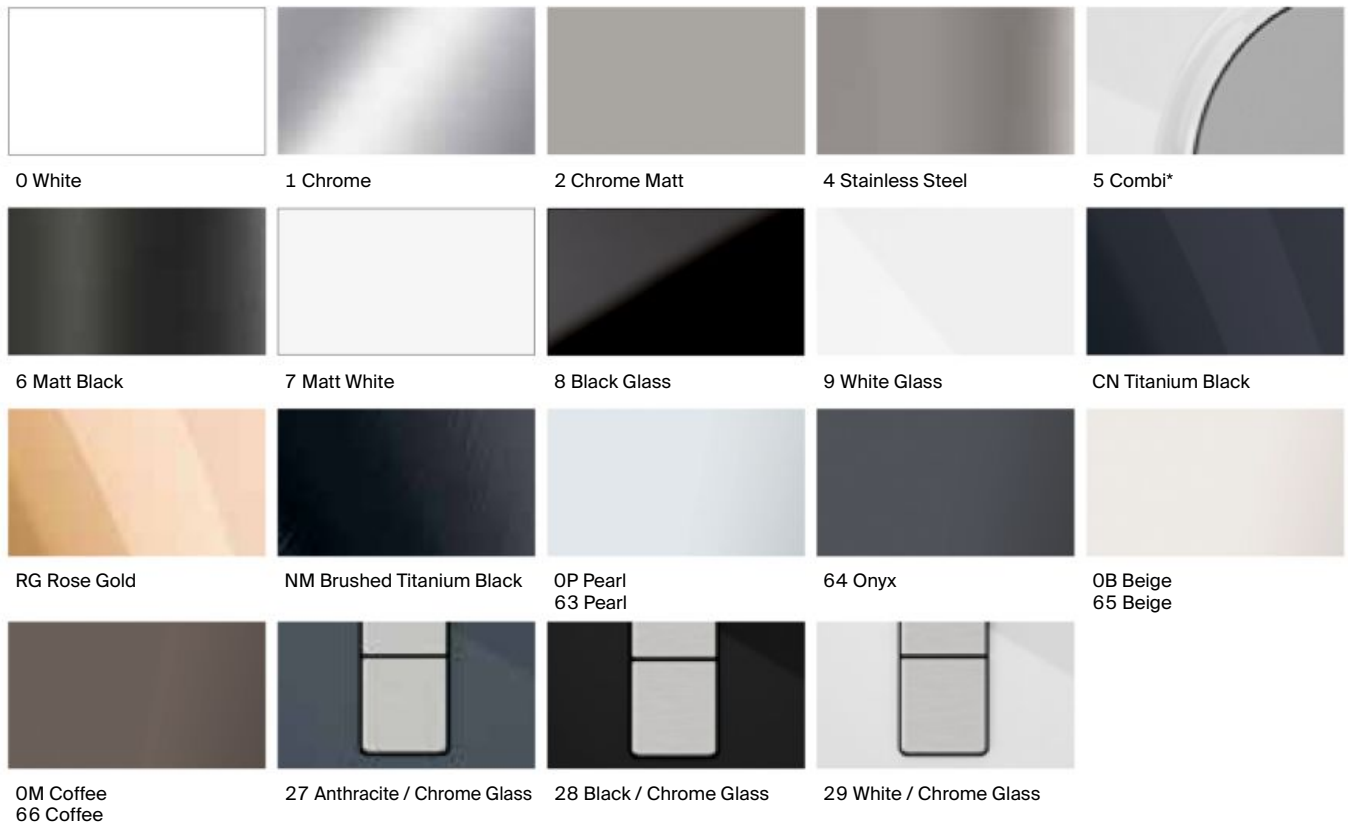

---

**Matt Colours.** Wide range of finishes matching other products with the same finishes.

**PVD finishes.** With a physical particle vaporization process that ensures an elegant finish.

**Glass.** Operating plates with sophisticated glass finishes.

\*White with chrome matt push button

Ona wall-hung WC, bidet and bidet mixer, Duplo WC One and PL7 dual operating plate.

## Installation Systems / Duplo

### Duplo WC One

Built-in structure with compact dual-flush cistern for wall-hung WC, minimum depth 107 mm. Axial distance of 180 and 230 mm. Elbow  $\text{\O}90/\text{\O}110$ . Metallic profile capable of withstanding 400 kg. Adjustable feet from 0-200 mm with braking system. Upper hydraulic connections. To be completed with a compatible Roca operating plate (not included).

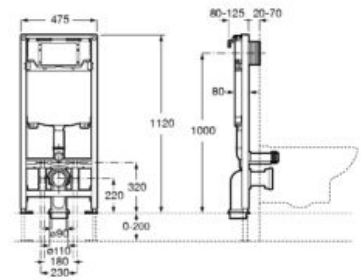

**A890070020**

$\text{\O}6/3\text{L}$

$\text{\O}4.5/3\text{L}$

$\text{\O}4/2\text{L}$

### Duplo WC One Compact

Built-in structure with compact dual-flush cistern for wall-hung WC, minimum depth 90 mm. Axial distance of 180 and 230 mm. Elbow  $\text{\O}90/\text{\O}110$ . Metallic profile capable of withstanding 400 kg. Adjustable feet from 0-200 mm with braking system. Upper hydraulic connections. To be completed with a compatible Roca operating plate (not included).

**A890073020**

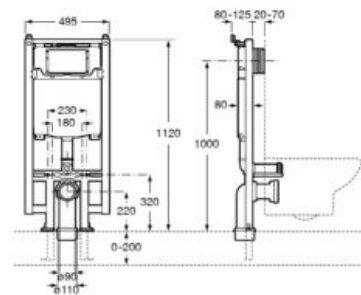

COMPACT

$\text{\O}6/3\text{L}$

$\text{\O}4.5/3\text{L}$

$\text{\O}4/2\text{L}$

### Duplo WC One Freestanding

Built-in structure with compact dual-flush cistern for wall-hung WC. Axial distance of 180 and 230 mm. A supporting wall is not necessary. Elbow  $\text{\O}90/\text{\O}110$ . Metallic profile capable of withstanding 400 kg. Adjustable feet from 0-200 mm with braking system. Upper hydraulic connections. To be completed with a compatible Roca operating plate. (not included).

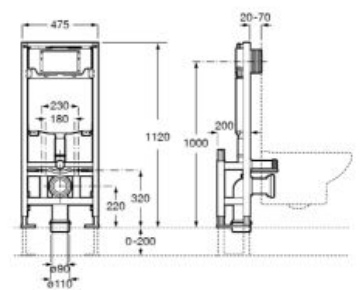

**A890077020**

$\text{\O}6/3\text{L}$

$\text{\O}4.5/3\text{L}$

$\text{\O}4/2\text{L}$

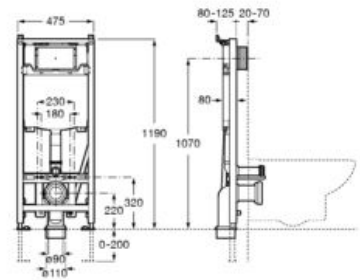

**Duplo WC One Smart**

Built-in structure with compact dual-flush cistern, inlet flexible pipe for Smart Toilets, corrugated pipe and installation accessories. Minimum depth of 107 mm, height 1,190 mm and elbow Ø90/Ø110. Axial distance of 180 and 230 mm. Recommended for the installation of wall-hung Inspira In-Wash®. Adjustable feet from 0-200 mm with braking system. Upper hydraulic connections. Metallic profile with a resistance capacity of 400 kg. To be completed with a compatible Roca operating plate (not included).

**A890078020**

**Basic Tank Underwindow**

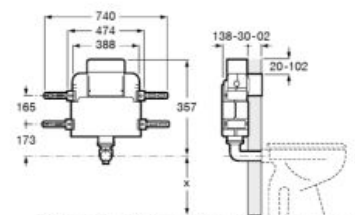

Low height concealed cistern for single floorstanding toilets with dual flush valve and installation accessories, minimum depth of 140 mm. Side hydraulic connection. Allows front or top activation. To be completed with a compatible Roca operating plate (not included) and adaptation kit for plates.

A890121200

Ø6/3L

Ø4.5/3L

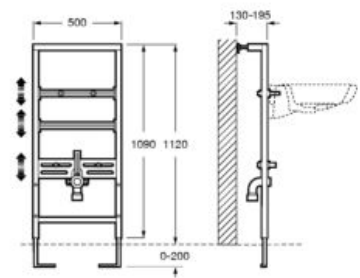

## Installation Systems / Duplo

### Duplo Basin

Built-in structure for basin. Metallic profile capable of withstanding 150 kg. Installation minimum depth of 140 mm. Adjustable feet from 0-200 mm with braking system. Adjustable hydraulic connection.

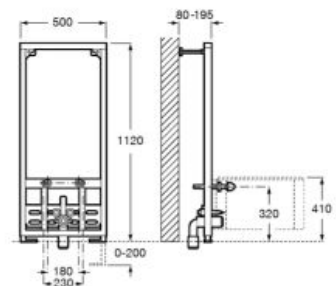

A890093000

### Duplo Bidet

Built-in structure for wall-hung bidet. Metallic profile capable of withstanding 400 kg. Installation minimum depth of 140 mm. Adjustable feet from 0-200 mm with braking system. Adjustable hydraulic connection.

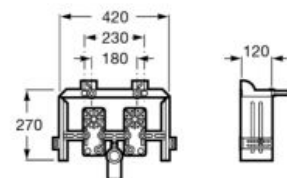

A890091200

### Basic Bidet

Built-in structure for wall-hung bidet. Capable of withstanding 400 kg. Installation minimum depth of 120 mm. Adjustable hydraulic connection.

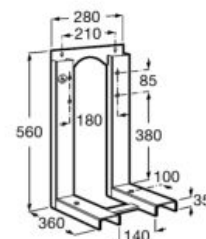

A890091100

### Supporting Frame

Built-in structure for toilet and bidet. Metallic profile capable of withstanding 400 kg.

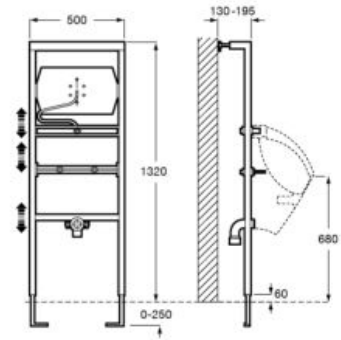

A822091001

**Duplo Urinal Universal**

Built-in structure for urinal. Metallic profile capable of withstanding 130 kg. Installation minimum depth of 140 mm. Adjustable feet from 0-200 mm with braking system. Adjustable hydraulic connection.

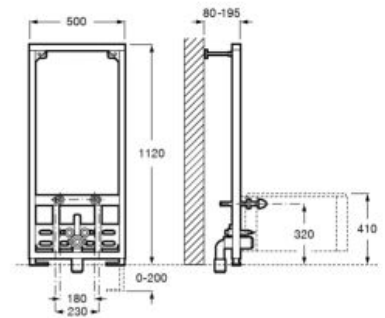

**A890094100**

**Duplo Accessible**

Built-in structure for fixing a grab bar. Designed to adapt to one side of the Duplo systems. Metallic profile capable of withstanding 100 kg. Adjustable feet from 0-200 mm.

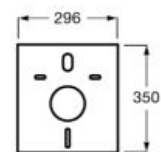

**A890090600**

**Silent In-Wall**

Noise absorption joint for wall-hung toilet or bidet. Prevents sound propagation of solid structures with the toilet or bidet.

**A890063000**

**Elbow**

Offset elbow to adapt wall-hung toilets to floor drain installation.

**A892027000**

### Adaptation Kits

Adaptation kit for PL3 / PL5 operating plates.  
Not valid for electronic plates.

**A890064010**

Adaptation kit for the rest of the plates. Not  
valid for electronic plates, PL3 / PL5.

**A890064000**

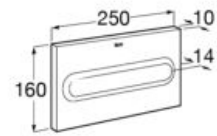

**PL1 Single**

Single flush operating plate for concealed cistern for Roca One installation systems. No tools required for installation.

# Furniture Collections

Transform the look  
and feel of your  
bathroom space

With over 100 years of knowledge and expertise, Roca is Europe's leader in the production and manufacturing of bathroom furniture. Using new technologies and innovative designs, including proprietary finishes, quality materials, and enhanced hardware solutions, Roca's extensive catalogue of bathroom furniture transforms the look and feel of any bathroom space. Furniture units, auxiliary columns and accessories all meet the highest standards in versatility, accessibility and style, with an ongoing commitment to sustainability and social responsibility.

## Key Benefits

---

**Quality.** Exquisite finishes, innovative materials and fine elements such as solid wood, marble or quartz.

**Styles.** Extensive catalogue of designs for every interior design project.

**Resistance.** High quality guides and hinges that guarantee 20,000 opening and closing cycles.

**Adaptability.** Diverse selection of sizes and typologies for all kinds of spaces and needs.

**Broad range.** Broad range of options including Unik solutions that encompass a base unit and basin, and Pack solutions featuring Unik and matching mirror.

**Complementary products.** Large variety of base units, basins, auxiliary units (such as column or top units), mirrors, and spotlights.

**Comfort.** Soft close system for drawers and doors to avoid bangs and noises.

**Functionality.** Fully extractable drawers allow easy access to the interior space. Drawers glide smoothly and securely.

**Adjustable.** High-quality door hinges enable easy adjustments in terms of height, depth, or sideways positioning. Reversible auxiliary units allow for left or right installation.

**Capacity.** Large drawers without a cut-out for the syphon provide generous storage volume.

**Order.** Drawers with built-in dividers, hidden compartments and organising boxes that enable a more optimal distribution of the contents.

# Mirrors and Lighting

Good, focused lighting and a clean, spot-free mirrored surface help make the daily routine easy

A good mirror and proper lighting are as essential in the bathroom as a toilet. This is the space where your day begins and ends, where you take a moment to yourself and get ready for what's next. Roca's extensive collection of mirrors include a variety of designs and finishes for different bathroom styles. Good, focused lighting and a clean, spot-free mirrored surface, in the form of mirrored cabinets, small magnifying mirrors or illuminated mirrors with integrated LED lighting and a demister, help make the daily routine easy.

## Key Benefits

---

**Design.** Wide variety of round, square or rectangular options to suit any style.

**Technology.** Models available with lights, demister device, adjustable lighting or perimeter lighting.

**Finishes.** In gloss, matt or wood, a wide range of options and a broad palette of contemporary colours.

## Technologies

---

**Naturlight.** Models with high-efficiency AC LED technology to provide neutral and natural light.

**Efficiency.** Wall lights and mirrors with LED lighting that consume less electricity.

**Touchless.** Mirrors that enable the light or the demister device to be activated by means of a motion sensor.

# Accessories Collections

There are many specific items with important functions in the everyday bathroom experience

## Key Benefits

---

**Styles.** Innovative design in different styles and finishes.

**Versatility.** Wide range of products with deck-mounted and wall-mounted models.

**Dual installation.** Installation kit with screws or adhesive included.

**Quality.** High-quality and long-lasting materials.

**Stability.** Stable against abrasive products, extreme temperatures, and UV light.

**Resistance.** Wall-hung items withstand loads of up to 5 kg.

**Quick fix system.** Swift and easy installation.

**Sustainable.** Designed with recyclable materials, packaged, and produced with minimum environmental impact.

**Evershine.** Long-lasting and polished chrome plating.

**Easy to clean.** No specific products are required for maintenance.

## Finishes

---

**PVD Finishes.** With a physical particle vaporization process that ensures an elegant, even, and scratch-resistant finish.

**Painted finishes.** With highly resistant polyester resins and pigments that maintain colour permanently.

Accessories are key components for a complete bathroom space. From wall-hung robe hooks to freestanding toilet roll holders or on countertop soap dishes, there are many specific items with important functions in the everyday bathroom experience. Different collections offer a variety of designs including metallic or colour finishes and embrace new materials such as wood, felt and cork, bringing a warm and tactile element to the bathroom space.

# Faucets Collections

Sustainability and safety are integrated into every faucet

A perfect union of precision technology and innovative design defines Roca's bathroom and kitchen faucets. Never before have there been so many possibilities – from colour, shape, finish and size – designed to appeal to a range of tastes and styles. Sustainability and safety are integrated into every faucet; non-toxic, highly resistant finishes such as Everlux PVD allow for a long life span, while energy saving systems such as Cold Start and advanced basin aerators limit and monitor water flow, giving each user peace of mind.

## Key Benefits

---

**Durability.** Exclusive ceramic cartridge, which allows a soft and precise operation, with the guarantee of one million opening and closing movements.

**Water savings.** Latest generation of flow limiters to 5 L/min, regardless of the pressure system, with water savings of 60%\*.

**Homogeneous flow.** Aerators with excellent aerated jet quality, even under complex pressure conditions. They come with anti-limescale protection for easy cleaning and maintenance.

**Adaptability.** Four heights for basin faucets (S, M, L, and XL in one piece) to provide greater user-friendliness.

**Acoustic control.** Sound reduction system integrated in the cartridges and faucets to limit the noise of the water.

**Safety.** Protective filters included in the aerators that stop any particles coming through from the mains.

## Technologies

---

### Cold Start

**Energy savings.** Basin models feature Cold Start, cold water opening that guarantees energy savings of 45%\*.

## Finishes

---

### Evershine

A high-quality chrome outer layer guarantees a permanent shine and makes cleaning easier.

### Matt finishes

Polyester thermosetting powder coating based on polyester resins, resistant to external agents, UV radiation and corrosion.

## Materials

---

### Everlux

**Sophisticated.** Exclusive and fashionable coating that adds distinction and uniqueness to the bathroom.

**Sustainable.** Purely physical technique that does not require harmful chemicals or generate water pollution during its production process.

**Resistant.** Additional layer on top of the chrome, based on noble and very hard metals ensuring the surface is extraordinarily resistant to scratches and cleaning products.

\*Based on annual savings for a family of 4, considering 2 minutes per day of toothbrushing and handwashing 5 times a day.

# A Perfect Fit

## Five sizes, endless options

When it comes to selecting the perfect faucet for your bathroom or kitchen, size matters. Faucets are available in a range of sizes, each designed to suit specific needs and spaces. From the compact and space-saving XS faucets to the grand and stylish XL faucets, there is a size to cater to every requirement and aesthetic preference.

**XS-Size.** Compact-sized faucets suitable for use in small spaces or for single-use purposes, such as in a cloakroom.

**S-Size.** Small to medium-sized faucets, comfortable and appropriate for most standard bathrooms.

**M-Size.** Medium-sized faucets, versatile and suitable for a wide range of basin sizes. Perfect balance between functionality and style, with a higher body and longer spout.

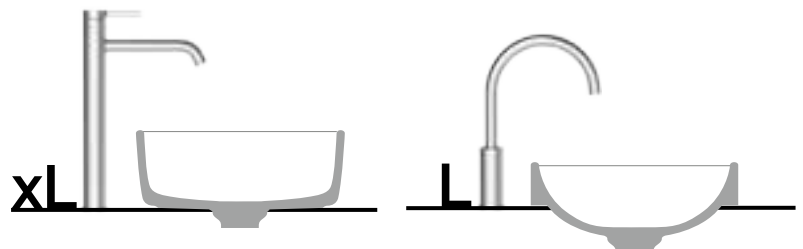

**L-Size.** L-Size faucets are larger than the average faucet, with side handle and high spout. Useful for washing or filling large glasses or bowls.

**XL-Size.** XL faucets are the largest and most stylish type of faucets available, for use with over countertop basins.

### Compatibility with different basins (basin models and basin installation types)

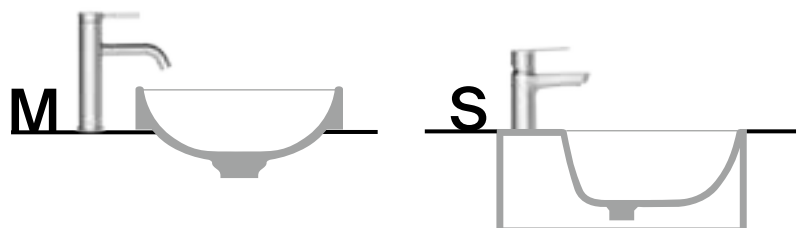

#### XL-Size

Fit for over countertop basins.

#### L-Size

Fit for medium / large wall-hung or countertop basins.

#### M-Size

Fit for standard / medium sized wall-hung or countertop basins.

#### S-Size

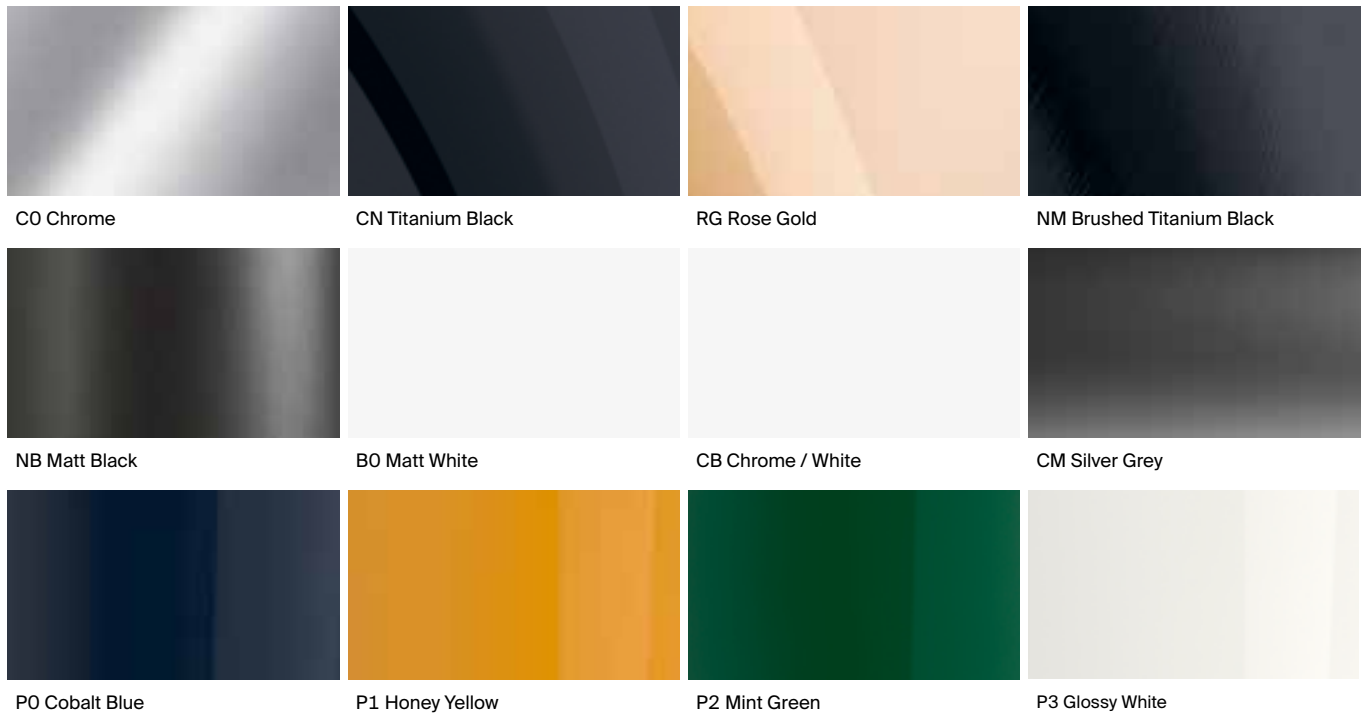

Fit for standard wall-hung, countertop or undercountertop basins.

#### XS-Size

Fit for compact, ultra-compact or small countertop or undercountertop basins.

# Shower Solutions

A simple shower can be transformative without the need for a large space or complicated installations. Designed for any bathroom space and user needs, Roca's shower systems offer universal shower solutions. The ultimate soothing and cleansing experiences come in the form of handheld showers with multiple spray options or ceiling-mounted rain showers. Thermostatic mixers are designed for any type of wall and shower space, while smart shower solutions help reduce energy and water consumption and allow for programmable shower options. Elegant and modern designs, including chrome and matt black finishes on shower fixtures, add style and enhance the overall experience.

Universal  
shower solutions  
designed for any  
bathroom space  
and user needs

## Technologies

---

### Digital faucets and fittings

**Mobile app.** Option of programming the shower or filling the bath remotely and establishing different user profiles for a customised experience.

**Intuitive use.** Simple interface makes it easy to use and understand.

**Childproof.** Control system that prevents children from adjusting the temperature and flow.

**Efficient.** Pause mode to keep the temperature stable while lathering up so as not to waste water and energy.

**Disinfection.** Cleaning programme using water at the maximum temperature to eliminate germs and bacteria without chemical products.

### Thermostatic faucets and fittings

**Quick Reaction® technology.** Desired temperature in just a few seconds, keeping it constant and saving water and energy.

**Precision.** Ergonomic control that allows the user to select the temperature quickly and precisely with a simple movement.

**Security 38°.** Temperature-limiting system that prevents it from exceeding 38° by default.

**Safe Touch.** Prevents overheating of the faucet body, avoiding burns when touching the metal parts.

**Anti-scalding.** If the cold-water supply is shut off, the flow of hot water will automatically stop.

**Efficiency.** Desired temperature is delivered almost instantly to avoid wasting water and energy.

**Eco Stop button.** Standard flow limiting system in the shower.

# Shower Trays

The perfect shower experience starts from the ground up. Shower tray collections are available in a variety of colours and innovative surface finishes, such as the improved Stonex® formulations made with recycled PET bottles. Key tray features include slip resistant surfaces, durable coatings for wear and tear and easy cleaning. Showers can be customized down to the size of the shower tray or the shape and position of the drain.

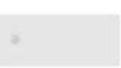

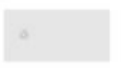

Key tray features include slip resistant surfaces, durable coatings for wear and tear and easy cleaning

**Textured ceramic material.** Exclusive and slightly textured ceramic finish with the outstanding properties of ceramics.

**Anti-slip.** Textured surface with superior anti-slip properties for maximum safety in the shower.

**Superslim.** A slim design that can be installed at floor level, removing barriers and providing easy access to the shower area.

**Hygienic.** Zero porosity enamel that prevents the absorption of water and the proliferation of humidity and bacteria.

**Resistant.** Highly resistant to wear and tear, decolourization, chemical agents, and UV light.

**Cut to size.** Easily adaptable to all types of spaces since it can be cut to size.

**Cratos**

Senceramic® extraslim shower tray. Textured antislip surface. Includes high-flow drain with textured Senceramic® drain cover.

# Stonex<sup>®</sup>

Manufactured from high-quality resins, mineral fillers and natural pigments, these highly durable anti-slip surfaces come in a variety of textures that evoke nature.

**Repairable.** Highly malleable sanitary gel coating that makes it easy to repair.

**Anti-slip.** Textured surface that guarantees the highest anti-slip properties. Up to Class C antislip levels, in compliance with the DIN 51097 standard, which guarantees maximum safety in the shower.

**Cut to size.** Easily adaptable to all types of spaces since it can be cut to size.

**Superslim.** Its exclusive formulation makes it possible to manufacture extra slim shower trays, which can be fully integrated and installed at floor level, removing barriers and providing easy access to the shower area.

**Resistant.** Outer gel coating highly resistant to wear and tear, decolorization, chemical agents, and UV light.

**Easy cleaning.** Textured surface can easily be cleaned with soap and water.

**Higyenik.** Outer layer that complies with the most demanding standards, which certify that viruses do not spread on the surface.

# Acrylics

An outer acrylic layer and a high-quality reinforced interior make this material ideal to create light, smooth and highly resistant surfaces.

**High quality.** Internal and external reinforced acrylic plate.

**Resistant.** Resistant to wear and tear, chemical and abrasive agents and decolourization caused by sunlight and artificial light.

**Warm.** Warm and smooth surface, pleasant to the touch.

**Easy cleaning.** Easy disinfection with conventional cleaning products.

## Neo Daiquiri

Acrylic shower tray with waste kit. Extraslim. Includes  $\varnothing 90$  mm drain and cover matching the colour of the shower tray.

# Steel

Combining elegance and durability, Roca's steel shower trays are designed to withstand daily use and maintain their pristine appearance over time.

**Durability.** Incredibly consistent pieces thanks to their exclusive mineral composition and a thorough control of the firing curve.

**Resistant.** Enamelled heavy gauge steel, up to 3.5 mm thickness highly resistant to wear and tear, decolourization, chemical agents, and UV light.

**Shine.** Crystallised surface that keeps its shine, colour, and performance over time.

**Easy cleaning.** Glazed surface with zero porosity that prevents the absorption of water and the proliferation of humidity and bacteria.

**Blues**

# In-Drain

## Drainage Systems

Achieve an accessible, functional and fully-integrated shower area with this drainage system.

**Maximum integration.** With the wide variety of sizes and formats, in-drain systems can adapt to any bathroom to provide a uniform floor level.

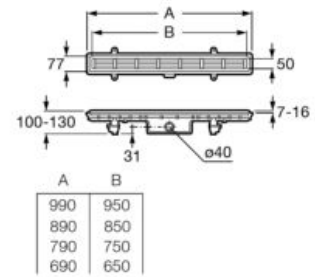

**Resistance.** High resistance to wear, fading, chemical agents and ultraviolet light.

**Cleaning.** Easy-to-maintain surface that can be easily disinfected with conventional cleaning products.

## In-Drain Channel

Installation drainage kit with pre-mounted geotextile fabric.

# Baths

The right bath can become the centrepiece of any bathroom space. A place to disconnect, soak and rejuvenate, baths need to be both ergonomic and elegant be they freestanding or inset. Roca offers a wide selection of baths available in classic, vintage or modern designs. These baths are crafted using a variety of materials, including cutting-edge components that enable thinner and more curvilinear shapes. Additionally, they incorporate advanced features to enhance hygiene and ensure increased safety.

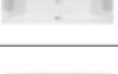

A place to disconnect, soak and rejuvenate, baths need to be both ergonomic and elegant

Raina freestanding bath, Pals floorstanding bath-shower mixer.

# Hydromassage Systems

---

## Hydromassage Systems

### Basic

**Continuous water massage. Pneumatic push button.**

The Basic system consists of an On/Off water hydromassage function controlled by a pneumatic push button. This system includes lateral adjustable jets that provide a continuous water massage.

### Tonic

**Invigorating water massage. Electronic push button.**

The Tonic system features a water hydromassage that can be adjusted by means of a power-regulating push button. This system is equipped with lateral adjustable jets to ensure a continuous water massage.

### Total

**Invigorating water massage and relaxing air massage. Electronic digital panel.**

The Total system features a water-air hydromassage managed by an LCD digital panel. It offers a range of massage programmes, including continuous or pulsating options, and an electronic Venturi function. This system incorporates lateral, back and feet jets, as well as air jets positioned at the base of the bath. All of these jets can be adjusted through the digital panel. The Total system is also equipped with temperature and level sensors to guarantee optimal bath performance.

### Total Premium

**New experiences, better sensations.**

The best sensations with the most comprehensive hydromassage system by Roca. Choose, combine and customize your relax session with the water-resistant remote control with touch screen; massage on feet, back, soft air bubbles or new experiences through chromotherapy. The baths with Total Premium hydromassage include a selfcleaning system and the maintenance of the temperature to maximize your well-being.

## Hydromassage Functions

### Water massage

The water massage is delivered through jets that release a mixture of water and air, creating a toning effect on our bodies. The intensity of the jets can be adjusted using a manual or electronic Venturi function, depending on the system, allowing for customised water pressure, with a softer or more invigorating experience.

Lateral massage: Adjustable jets located on the side of the bath.

Foot massage: Specific for feet.

Back massage: Specific for the back.

### Air massage

This massage is performed using bubbles that are released through small jets positioned at the base of the bath. An air massage is softer and more relaxing than a water massage, and the intensity of the bubbles can be adjusted using various control options.

Two different technologies are available:

Air jets and Soft jets

### Chromotherapy

The Total Premium system includes the chromotherapy function, which works with 3 LED spotlights that change colour to create an immersive atmosphere. These lights are the ideal complement for a total hydromassage session.

### Customization

Some systems allow users to personalise their massage session by creating programmes that align with their individual needs and preferences. This user-friendly feature enables quick and easy customization.

### Self-cleaning

In small quantities, ozone generates a cleansing effect throughout the entire hydromassage system, guaranteeing a clean and hygienic experience every time it is used.

## Control Panels

### Pneumatic push button

Available in the Basic version. Pneumatic push button to activate and deactivate the hydromassage.

### Electronic push button

Available in the Tonic version. Electronic push button to activate and deactivate the hydromassage. The Venturi function (intensity regulation) is activated by turning the push button. The illuminated Roca logo signals massage activation.

### Digital panel

Available in the Total version. Digital panel with LCD screen. Menu navigation with three buttons that allow users to activate, deactivate, change, and adjust the various functions.

### Remote control

Available in the Total Premium version. Water-resistant remote control with touch screen. Navigation based on each one of the icons that activate/deactivate each function. Icon-based navigation, with each icon corresponding to a specific function that can be activated or deactivated.

## Types of Jets

### Lateral adjustable water jet Ø 50 mm

Lateral jet that can be adjusted to alter the direction of the water. This allows the massage to be adapted to the needs and preferences of each user.

### Back rotating water jet ø 32 mm

The back jet has a rotating function performs a gentle massage, especially designed for the back area.

### Foot jet ø 32 mm

The foot jet consists of a microjet designed with minimum dimensions to ensure a gentle massage on the soles of the feet.

### Air jet ø 27 mm

The air jets have undergone a redesign. Featuring a more oval and flatter shape, this new design enhances comfort and improves overall cleaning efficiency.

### Soft jet

The soft jets combine the effect of air and water to create champagne-like bubbles from the base of the bath.

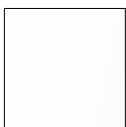

# Surfex®

The warm, matt surface of this innovative mineral-based compound is perfect for creating exclusive baths with a sophisticated touch.

# Stonex<sup>®</sup>

The plasticity of the blend of resins, minerals and pigments used in this material is key to designing original baths with innovative features.

**High quality.** Gel Coat outer layer and a resin substrate combined with a fine selection of different mineral charges.

**Warm texture.** Providing a natural and pleasant tactile experience.

**Anti-slip.** Textured surface with superior anti-slip properties for maximum safety in the shower.

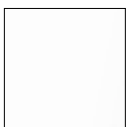

**Resistant.** Outer gel coating with high resistance to wear, fading, chemical agents and ultraviolet light.

**Easy cleaning.** The textured surface is easy to maintain and can be cleaned with soap and water.

**Repairable.** Highly malleable sanitary gel coating that makes it easy to repair.

**Antibacterial.** Outer layer that complies with the most demanding standards, which certify that viruses do not spread on the surface.

# Shower Enclosures

Contemporary design amenities such as an integrated towel rack or an optional shelf considers everyday needs

## Key Benefits

---

**Resistance.** Corrosion resistance verified with 200 hours of testing in a saline mist environment.

**Easy cleaning.** Door release system to make cleaning between glasses easier.

**Durability.** Proven mechanical resistance with 20,000 opening and closing cycles guaranteed.

**Maxiclean®.** Exclusive treatment that repels water, avoids limescale and the buildup of dirt, making cleaning easier.

**Security.** Tempered glass that, in the event of breakage, breaks up into small pieces to limit the risk of accidents.

**Easy installation.** Models with dual installation, and a high-quality adhesive installation system, which simplifies the process and avoids the need for drilling into the wall.

**Adaptability.** Compensation system so the shower enclosure can be adapted to the irregularities of the wall and optional brace support to ceiling.

With made-to-measure or standard-sized shower enclosures, it's easy to find the right solution for any shower space. Whether the bathroom is spacious or compact, there are options for one or two doors, sliding doors, and corner configurations, all available in polished silver and brushed matt black. Contemporary design amenities, such as an integrated towel rack or an optional shelf, considers everyday needs. Roca shower enclosures are designed to resist corrosion and prevent the build-up of limescale.

Brisa shower enclosure.

# Brisa

This collection of shower enclosures features slim profiles available in a range of configurations and glossy silver or matt black finishes.

**8 mm glass thickness**  
Tempered glass that adheres to the European standard EN: 12150 providing maximum safety. In the event of breakage, the glass shatters into small, harmless pieces.

**Door release system**  
Featuring a mechanism to release the doors from its lower fastening, which facilitates cleaning between the glass panels.

**Soft-close opening and closing**  
Doors with soft-close opening and closing to avoid unnecessary blows.

**Minimalist handle**  
This model features a practical, 650 mm long handle in a sleek and ergonomic design.

**Brisa L2-E**

Front shower enclosure with 1 sliding door + 1 fixed panel. To install between walls. Height 2000 mm.

# Naray

With a minimalist design and effortless installation, this collection of sliding shower enclosures, featuring no lower profiles, now includes new details that enhance its personality and appeal.

## Concealed bearings

The concealed bearing system within the profiles prevents any contact with water, ensuring greater durability.

## Integrated robe hook

A convenient, integrated robe hook provides a practical solution to keeping towels and bathrobes within easy reach.

## Vertical handle

A modern and minimalist 300 mm handle adds character and functionality.

## Door release

A mechanism to release the doors from the bottom frame to facilitate cleaning between the glass panels.

**Naray L2-E**

# Specific Uses

Designing products with all users in mind, both for public and private spaces is an integral part of Roca's mission. Using the Clear Code Architecture® method designed by PMMT architecture studio, Roca can improve certain designs to fit universal accessibility guidelines. Beyond products, the Roca App builds more connections between users and products and creates greater user satisfaction. More knowledge about water use, energy consumption, maintenance and installation gives users peace of mind.

Designing products with all users in mind is an integral part of Roca's mission

## Key Benefits

---

### Accessibility

**Security.** Anti-slip and electrical insulating materials along with robust installation systems guarantee perfect attachment and maximum security.

**Certified quality.** Products subjected to rigorous approval processes to meet the highest safety and resistance standards.

**Durability.** Maximum resistance to corrosion, cleaning products, and wear and tear.

### Communities

**Water savings.** Extensive catalogue of electronic and push-button basin mixer that can be adapted to different styles and needs.

**Cut to size.** Washbasins designed in Surfex® that can be adapted to different size and design requirements.

**Resistance.** High-quality materials that guarantee the durability and perfect condition of the products, even considering wear and tear.

## Specific Uses / Electronic Flush Valves

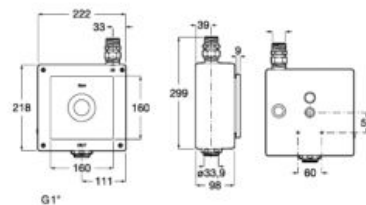

### Sentronic-R

Electronic flush valve for WC. Mains operated at 230V.

A5A9102C00

Finishes:

C0

### Sentronic-V

Electronic urinal flush valve. Powered by 9V alkaline battery. Remote control to regulate the detection length and discharge time of the flush valve not included.

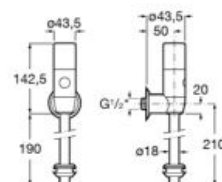

A5A9A79C00

Remote control for urinal. To regulate the detection distance and flushing time of the flush valve.

A525081207

Finishes:

C0

### Sentronic-S

Electronic urinal flush valve.

A5A8102..0

Internal subset with stop valve. Powered by 4 alkaline batteries 1.5V LR6 (AA). Batteries not included.

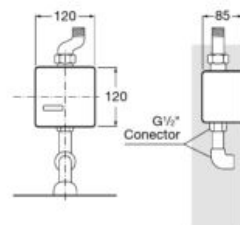

A525165203

Internal subset with stop valve. Mains operated at 230V.

A525165303

Finishes:

C0 CM B0

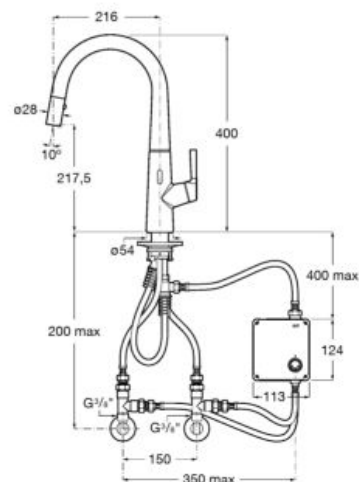

**Syra-E. Kitchen faucets**

Electronic single-lever kitchen mixer with retractable swivel spout, 2-function rinse spray function and flexible supply hoses. Cold Start. Mains operated at 230V. Includes power source.

**A5A8A2AC00**

Finishes:

C0

Syra-E electronic single-lever kitchen mixer, Oslo kitchen sink.

## Specific Uses / Instant Foot Self-closing Faucets

# Kitchen Sinks

Never before  
have there  
been so many  
possibilities

Roca has created a range of kitchen sinks using high quality materials and finishes. The kitchen is the heart of the home, a place where people gather and connections are made. With a commitment to excellence in manufacturing and design, Roca has created a range of kitchen sinks using high quality materials and finishes. These sinks come in a variety of colours and modern designs to improve daily routines and enhance a welcoming atmosphere at home. Whether they are made with stoneware, stainless steel or Roca's innovative Quarzex<sup>®</sup>, these kitchen sinks are durable, heat resistant, and exceptionally hygienic.

## Materials

---

### Quarzex<sup>®</sup>

**Hygiene.** Zero porosity textured surface that prevents the absorption of water and the proliferation of humidity and bacteria.

**Easy cleaning.** Simple maintenance with standard cleaning products.

**Resistance.** Very resistant to knocks, scratches, abrasion, and high temperatures of up to 180 °C.

**Durability.** High-quality natural pigments that maintain their colour when exposed to chemicals and ultraviolet light.

**Texture.** Its natural composition makes it warm and pleasant to the touch.

### Stainless Steel

**Hygiene.** Zero porosity surface that prevents the absorption of water and the proliferation of humidity and bacteria.

**Easy cleaning.** Simple maintenance with standard cleaning products.

**Resistance.** Ability to withstand temperatures of up to 300 °C and resistance to blows and knocks.

**Durability.** High chromium content that ensures it remains unalterable against corrosion and oxidation.

**Contemporary.** Incredible malleability for use in a wide variety of sizes and shapes.

### Fireclay

**Hygiene.** Zero porosity vitrified enamel that prevents the absorption of water and the proliferation of humidity and bacteria.

**Easy cleaning.** Smooth surface for simple maintenance with standard cleaning products.

**Durability.** Corrosion-resistant parts that stay shiny over time.

# Kitchen Faucets

Roca's line of kitchen faucets come in a variety of styles, shapes and colours that enhance the design of the kitchen while also providing better performance through energy-saving features. Ergonomic designs and versatile functions combined with electrolytic coatings for perfected matt or glossy surfaces reflect Roca's high standards and attention to detail. Innovative features include the Cold Start system and the use of ceramic cartridges. Subtle yet essential features including soft movement, steady flow aerators and low noise applications provide pleasant everyday experiences and long-term satisfaction.

## Key Benefits

---

**Wide range.** Variety of styles and configurations for all kitchen needs and styles.

**Pull-out spout.** Pull-out sprayer with two functions: laminar splash-free function and spray function.

**Shower function.** Models with shower function for a more effective and efficient rinse.

**Cold start.** Cold opening that guarantees energy savings up to 35%\*.

**Durability.** All models feature Roca's exclusive ceramic cartridge, which allows a soft and precise operation, with the guarantee of one million opening and closing movements.

## Finishes

---

**Evershine.** Electrolytic coating guarantees permanent shine over time and makes cleaning easier.

**Everlux.** Physical vapor deposition (PVD) process, ensuring a perfectly even finish.

**Matt finishes.** Polyester thermosetting powder coating based on polyester resins.

\*Based on annual savings for a family of 4, considering 2 minutes per day of toothbrushing and handwashing 5 times a day.

Subtle yet essential features provide pleasant everyday experiences and long-term satisfaction
