

# Targa

The redesigned Targa has a commanding silhouette with strong lines that embody a pure and minimalist aesthetic.

# Effortless elegance

The redesigned Targa collection inspires a lifestyle of sustainable elegance. Designed with meticulous attention to detail, its sleek, slender silhouette and clean, straight lines exude an air of modern refinement. Available in different sizes, these versatile faucets combine form and function with innovative water-saving technologies and a choice of finishes.

Cold Start Opening System

Comfort Height

Flow Rate

Multiple Finishes

**Cold Start**

Designed with a default starting position for cold water to avoid unnecessary boiler activation. This reduces energy consumption and the amount of CO<sub>2</sub> emissions emitted into the atmosphere.

**Comfort Height**

The range offers a variety of washbasin types, with basin models in S, L and XL sizes, allowing customers to choose a height that suits their specific needs.

**Flow Rate**

Targa faucets feature aerators that limit water flow to 5l/minute and mix air into the flow, ensuring more comfort and 60% more water savings than conventional aerators. mains supply.

**Multiple Finishes**

Available in a choice of finishes to suit any bathroom style, including the highly resistant Everlux PVD finish in brushed brass and stainless steel, the long-lasting Evershine chrome finish, and painted finishes in matt black and matt white.

# Our contribution to a more sustainable future for all

Our commitment to sustainable growth and development prioritises the wellbeing of people and the planet. This commitment is reflected in our efforts to foster strong societal relationships and support communities, as well as initiatives in decarbonisation, eco-design and circularity.

## Products

**Dual-flush mechanism**  
Dual flush cisterns offer adaptable water use, ensuring efficiency for different flushing requirements while reducing overall water consumption.

**Smart shower**  
Smart shower solutions allow programmable shower options and monitor water usage to encourage responsible and sustainable use.

**W+W**  
Integrating the washbasin and toilet into a single piece, this internationally acclaimed design reuses water from the washbasin to flush the toilet.

**Certificates**  
Many of our products are made from FSC®-certified wood, demonstrating that the materials come from responsibly managed forests.

**Unified Water Label**  
Many of our products are registered with the Unified Water Label scheme. This scheme identifies water-saving products that, when installed and used correctly, will use less water, saving energy and money.

The Water Label is used across Europe for most bathroom products.

Throughout our brochure, we have highlighted the faucets with the best water-saving performance, marking those that are 'best in class' in terms of water efficiency. The flow rate classification is measured at 3 bar pressure. For more information and complete details on water flow rates and classification, please visit <https://uwla.eu/>.

\* Data from 2018-2023  
\*\* Data from 2023

We create high-quality, durable products by considering their entire lifecycle, from carefully selected materials to optimised transport methods. Our aim is to combine the needs of society with environmental responsibility to deliver solutions that benefit everyone.

Technologies

**Cold Start**  
Cold Start technology prevents unnecessary boiler activation by defaulting to a cold water start position. This innovation saves energy and reduces emissions released into the atmosphere.

**Aerators**  
Faucet spouts with aerators that mix air with water help to reduce the flow rate while maintaining the same functionality and comfort.

**Thermostatic faucets and fittings**  
Quick Reaction® technology delivers desired temperatures rapidly and an eco-stop button contribute to water conservation in showers.

Initiatives

**Pioneering sustainable ceramics**  
Our recent partnership with Keramischer Ofenbau marks a significant step towards sustainability as we launched the world's first electric tunnel kiln for the production of sanitaryware. This pioneering initiative positions us as a global leader in the operation of a net-zero sanitaryware manufacturing facility, setting a new standard for the industry. Through collaboration and innovative technology, we aim to lead the way to a sustainable future for the ceramics industry.

Commitment

**Sustainable and Ethical Commitment**  
Roca Group is committed to implementing responsible business practices that prioritise environmental protection, social responsibility and ethical behaviour.

**EcoVadis Gold Medal**  
recognises Roca Group's outstanding sustainability performance.

We Are Water

For over a decade, the We Are Water Foundation has promoted global hygiene and sustainable water management, improving access to clean water and sanitation in disadvantaged regions while raising awareness and providing training.

As a proud member of the **United Nations Global Compact**, sustainability forms an integral part of our commitment and we work in line with the targets of the **Sustainable Development Goals**.

Materials

**Stonex®**  
An improved formula for Stonex® baths uses recycled PET bottles, reducing the carbon footprint by up to 25%.

Roca is a family-owned company dedicated to the design, manufacturing, and sale of bathroom solutions for architecture, construction, and interior design. Founded in Barcelona in 1917, it combines tradition and knowledge with a passion for innovation and respect for the environment.

With sustainability as a key element in all its processes and a commitment to ensure a better planet for future generations, Roca is present in 170 countries, operating 79 factories across the five continents with more than 21.000 employees.

In 2024, Roca is an official sponsor of Alinghi Red Bull Racing for the 37<sup>th</sup> America's Cup in Barcelona. This initiative is part of the company's ongoing mission to work with leading companies that share its commitment to excellence, design, innovation and sustainability.
