Precise & Versatile Design

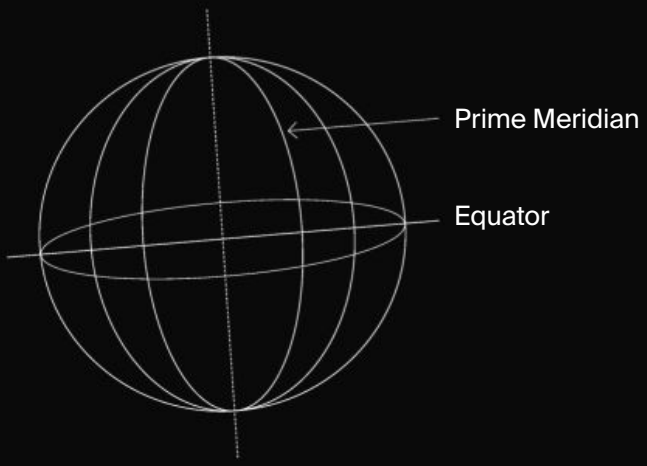

Designed by Barcelona-based studio Altherr Désile Park, Meridian reinterprets the architectural heritage of the Mediterranean through a modern lens. The result is a collection that evokes serenity while embracing innovation and contemporary living.

Born from the interplay between geometry and the natural rhythm of time, Meridian captures the smooth transition between moments, evoking harmony between light and shadow.

For the designers, timelessness is not only about enduring aesthetics, but also about evolution. Redesigning a collection that has already stood the test of time meant preserving its essence, while refining details to enhance its relevance.

Crafted from premium materials chosen for their durability and minimal environmental impact, the collection's flowing curves and neutral tones bring a sense of serenity to the space. Its adaptable design ensures a seamless fit in a variety of interiors, creating a perfect balance between form and function in everyday life.

“Inspired by the invisible line that separates light from shadow, Meridian reflects the perfect balance that adapts to the changing light throughout the day.”

The Precision of a Timeless Design

The Collection

Rooted in the harmony of functionality and design, the collection is characterised by sophisticated proportions and understated elegance. Straight lines are softened by delicate contours, while the purity of its materials and the warmth of its finishes evoke a sense of serenity.

Meridian blends into any environment, from the main bathroom of a home to the suite of an exclusive hotel. Its fine style, architectural forms, and harmonious finishes transform the space into a sanctuary of wellbeing.

Auxiliary unit with one drawer in ebony / Auxiliary metal box in matt black

One of Meridian’s defining qualities is its ability to adapt seamlessly to different spaces. Its flexible design allows for multiple configurations and finishes, ensuring a perfect fit in any setting. The simplicity of its forms and its practical approach ensure that each piece integrates naturally, enhancing both functionality and aesthetics.

Base unit with two drawers and open shelf in matt black and ebony, 600 mm / Basin in matt black / Ona faucet and Tempo robe hook in matt black / Luna Ambient mirror

With a palette of neutral tones and a serene aesthetic, Meridian creates a soothing atmosphere in the bathroom. Its well-composed lines and enduring character make it an ideal choice not only for the home, but also for the hospitality sector, where a sense of comfort and exclusivity are essential.

Basins & Furniture

The design of the Meridian basin is light and contemporary. With ceramics and furniture available in a sophisticated range of colours, each piece sets the tone for a variety of interior styles. Neutral tones and subtle contours bring harmony to a room and create the perfect atmosphere.

The collection ensures both quality and comfort, incorporating remarkably lightweight yet durable Fineceramic® basins. Complemented by wooden furniture that adds rich texture, this harmonious interplay of ceramics and wood creates a warm, inviting ambience - perfect for creating beautifully balanced spaces that exude timeless elegance.

The mini basin is a wall-hung design that optimises space with its compact dimensions. Well-suited for bathrooms where every millimetre counts, its minimalist modular structure eliminates the need for extra furniture, ensuring a clean and effortless integration.

Available in three finishes, this basin easily adapts to spaces where efficiency and functionality are essential.

Toilets & Bidets

Carefully designed as compact architectural pieces in ceramic, Meridian toilets and bidets are available in a range of configurations, including wall-hung and back-to-wall models. Their refined aesthetics allow them to fit organically into any bathroom setting.

Simple yet contemporary, Meridian is intended to create comfortable and well-balanced spaces. The traditional close-coupled toilet has been reimagined as a modern, sophisticated piece, with the cistern harmoniously integrated into a single, streamlined form. This thoughtful design enhances spatial continuity and reinforces a clean, cohesive look. Optimised for functionality and ease of installation, it strikes the perfect balance between aesthetics and innovation.

Roca Rimless® Vortex technology eliminates the traditional toilet rim, removing hard-to-reach areas where residue can accumulate. This not only improves hygiene but also optimises water flow for a highly efficient and effective flush. Designed for maximum performance, it works seamlessly with dual flush options of 4.5/3 litres and 4/2 litres, ensuring effective waste removal while significantly reducing water consumption. The innovative system also minimises noise emissions and reduces aerosol dispersion for a quieter, more hygienic experience.

Our Planet. Our Home

We are committed to putting people and the planet at the center of every decision we make. Because creating a sustainable future starts with the spaces we live in, and how we produce these spaces is key. That's why we craft products that bring comfort, beauty, and balance to your home, while protecting the planet every step of the way.

Every detail matters: from eco-designing products that last a lifetime to minimizing emissions, using clean energy, and reducing water and resource consumption. We believe that a home — whether our own or the planet we all share — should be a place of wellbeing, harmony, and care. This belief guides our comprehensive approach to sustainability, which involves taking a wide range of actions, such as reusing and recycling more, improving our processes, and ensuring access to water and sanitation for those who need it most, among many other initiatives.
