Vorea

Intuitively Smart

Roca

Intuitively Smart

Technology seamlessly integrated into a timeless, classic design, creating the perfect balance between aesthetics and performance. All the advanced features of a smart toilet, subtly hidden within a familiar, elegant silhouette.

In-Wash® Vorea is a true expression of beauty. It blends form and function to deliver a sophisticated smart bathroom experience. Its refined, neutral design ensures it is the most discreet smart toilet to date.

In-Wash® Vorea transforms any space into a serene and calm space where cutting-edge technology meets modern living.

This smart toilet is as efficient as it is stylish.

Timeless Harmonised Design

In-Wash® Vorea embodies elegance with its smooth curves and sharp lines, giving a fresh perspective to the bathroom space. The rear cover, with its unique texture, colour and PVD brushed stainless steel finish, adds an extra layer of sophistication to the overall design.

Thoughtfully designed to be universally appealing, In-Wash® Vorea seamlessly integrates into any space as a standard toilet, incorporating all the advanced features of a smart toilet, while maintaining dimensions and aesthetics that closely resemble those of a traditional toilet. The seat and cover are virtually indistinguishable from a conventional toilet, providing a sense of familiarity and comfort for the user.

As Functional as It Is Elegant

In-Wash® Vorea is designed with convenience and style in mind. Every detail has been carefully considered, from the intuitive remote control that complements the minimalist aesthetic, to the all-in-one solution that optimises space without compromising on functionality.

With its ultra-slim profile, the toilet conceals advanced technology, resulting in a sleek and sophisticated design.

The new remote control has a slim, lightweight design and intuitive operation for enhanced user experience.

The integrated cistern (available in In-Tank® versions) provides a space-saving, all-in-one solution that combines practicality with elegance.

Complete Hygiene

Superior Washing Experience

In-Wash® Vorea delivers an enhanced washing experience. Separate outlets provide dedicated front and rear wash functions, with the rear wash featuring Airtech technology.

This innovative system blends air and water for a more effective cleanse.

In-Wash® Vorea's instant water heater ensures a continuous supply of warm water, maintaining a consistent temperature for uninterrupted comfort, even during consecutive uses.

Coanda Effect

High-Performance Drying

In-Wash® Vorea leverages the Coanda effect to achieve advanced, precision drying.

Inspired by the natural phenomenon that causes fluids to follow curved surfaces, a specially designed nozzle directs the airflow precisely where it is needed for effective drying results.

The drying experience can be customised by adjusting both air temperature and pressure.

In-Tank®

Refined Space Saving

The revolutionary In-Tank® system integrates the water tank into the bowl, combining aesthetics and practicality for an incredibly space-efficient design.

This innovation is complemented by Roca Rimless® Vortex, a unique flushing system that delivers a powerful, silent 360º whirlwind flush up to four times, ensuring a thorough clean every time. The rimless design eliminates hidden nooks and crannies where dirt and germs can accumulate.

Available only in In-Tank® versions.

Connected Toilet

Smart Control and Personalisation

With Roca Connect, all functions are just a touch away. Washing and drying features can be controlled and customised directly from a smartphone. Remote operation also allows users to adjust seat heating, set lighting and receive notifications, alerts and water consumption insights.

Designed for ease of use, all functions and settings are effortlessly controlled with the new intuivite remote control. In addition, an extra side button provides quick access to the essential functions of washing and flushing, as well as the ability to switch the toilet off if needed.

Designed for Ultimate Comfort

Rear and Front Wash: A fully personalised rear and front wash with an instant water heater. Airtech technology combines air and water for greater hygiene.

Coanda Effect Dryer: The nozzle design follows this principle, ensuring that airflow is directed to the required area for optimum drying results at any power level.

In-Tank®: The built-in tank maximises space, while maintaining a balance of aesthetics and functionality.*

Intuitive Remote Control and Emergency Button: The new remote control provides easy access to key functions, allowing users to adjust every parameter. A side button provides quick control of essential actions.

Roca Connect: Extending the capabilities of the remote control, Roca Connect allows users to personalise functions, schedule maintenance and manage cleaning, among other things.

Self-Cleaning Nozzle with UV Light: The nozzle is cleaned with water before and after each use, complemented with UV light to ensure that 99.99% of bacteria are removed.

Roca Rimless® Vortex: A specially designed bowl optimises water flow for quiet flushing and improved cleaning performance.

Heated Seat: Carefully balanced heat ensures a comfortable experience, adjustable via the remote control or Roca Connect app.

User Detection: Built-in sensor activate only when a user is detected, enabling automatic flushing, deodorisation and night lighting.

Deodorizer: A high-performance active carbon filter efficiently eliminates unwanted odours.

Night light: Soft lighting guides the user in the dark.

Descaling: An easy descaling process ensures long-term performance.
