BAIA
ARMANI / **Roca**

TECHNOLOGY DEFINES THE (PUBLIC) BATHROOM OF THE FUTURE: **SAFETY, COMFORT AND EFFICIENCY**

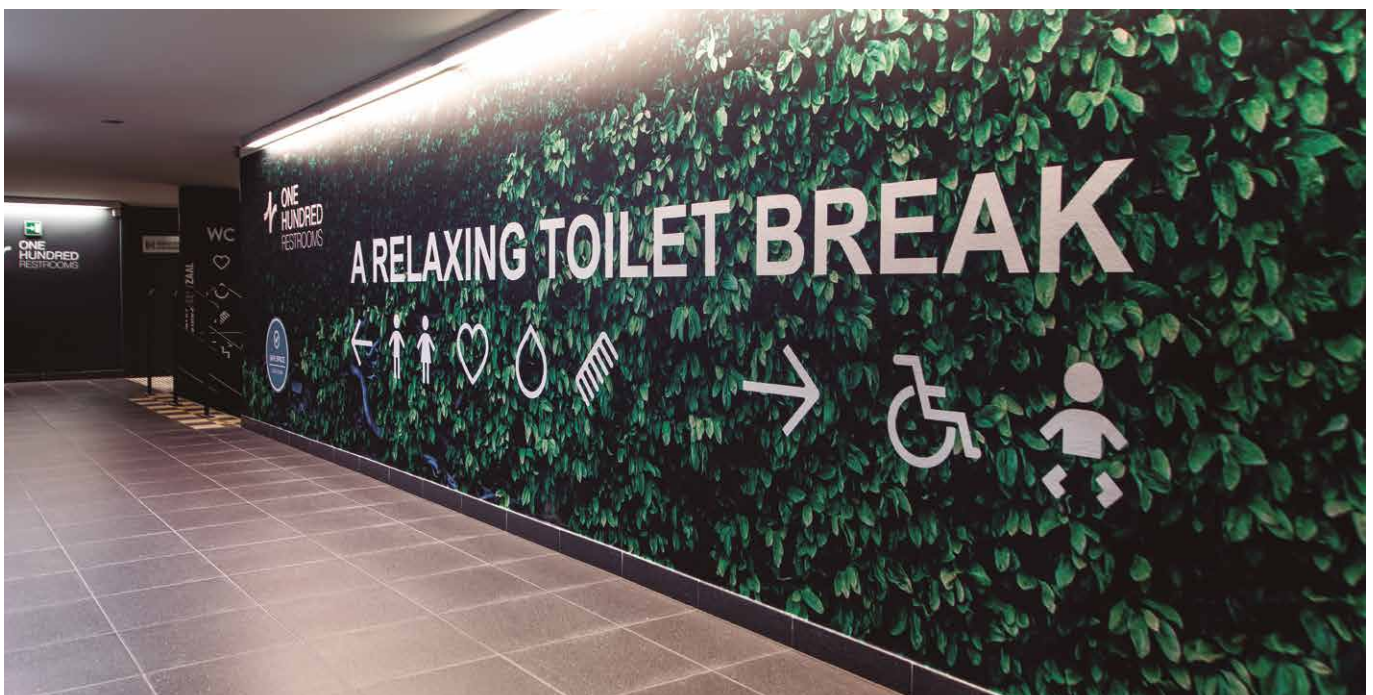

Caring for people means being committed to the wellbeing of today and tomorrow, it also means remaining attentive to the needs and challenges of a changing society. When One Hundred restrooms, together with Roca, decided to revolutionize the way of understanding public bathrooms, it shaped an innovative concept based on comfort, safety and technology that can be considered a benchmark today in different European cities. Bathroom spaces that combine design and innovative proposals that guarantee maximum safety in common areas and serve as an example of what will be the future -or the present- of a connected bathroom.

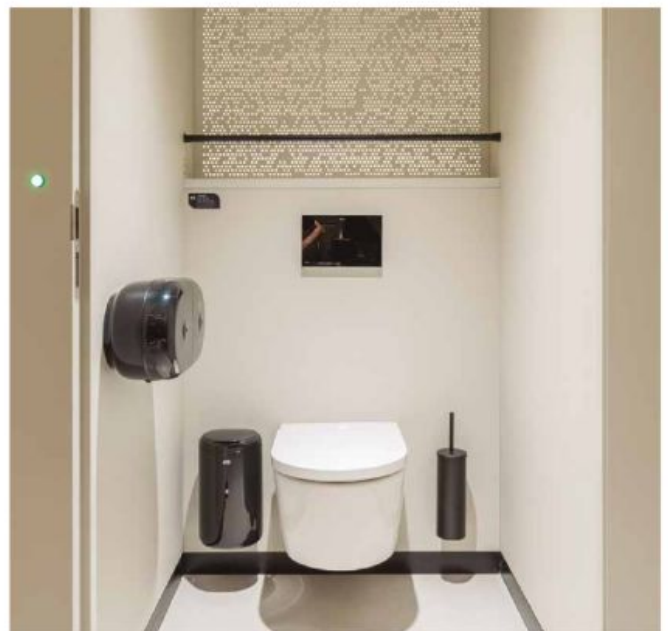

Hand in hand with Roca's touchless solutions, these bathrooms include products that prevent direct hand contact avoiding thereby the transmission of viruses and bacteria. Thus, Loft electronic faucets combine design and safety by activating the water flow with an infrared sensor integrated in the spout. Considered one of the most sensitive areas of the bathroom, toilets, on the other hand, feature EP1 electronic operating plates that activate the flush when perceiving the movement of the hand, without having to be touched. Finally, in urinals, the Sentronic electronic flush valve is built into the wall and allows the flush to be programmed to activate when it detects any presence or automatically after every use.

The experiences we collect
in these public spaces
are incorporated directly
into the development
of our connected products.

A complete assortment
that will be of high value
also for semi-public
and private spaces.

Juan Diego Jiménez
Corporate Product Manager
IOT Solutions

Understood as a complementary service to conventional restrooms, the bathroom spaces of One Hundred restrooms are installed in large retail areas, gas stations or airports in large cities and are aimed at those people who demand a premium service in which they can feel fully safe and comfortable. In order to achieve this, the proposal adds other Roca solutions that stand out like the In-Wash® Smart Toilet, Inspira over countertop basins manufactured in Fineceramic® and wall-hung WCs with Roca Rimless technology.

Along with touchless products, the One Hundred restrooms bathroom spaces also integrate the Roca Protect service, which combines Internet of Things and AI to optimize consumption and improve the management of the facilities. Organized with

sensors, this system compiles and sends real-time data to detect anomalies, generate alerts and even solve certain errors automatically. Marielle Romeijn, co-founder and CBO of One Hundred restrooms points to a future forward way of working, which continuously adds new technologies and modules to designs: "Already today every device collects and treats data in order to offer facility managers comprehensive details on their assets' behavior, triggering preventive maintenance when needed."

As technology is only useful when it improves people's lives, One Hundred restrooms and Roca use it to create experiences that guarantee the peace of mind and trust of people in increasingly safe, comfortable and efficient public restrooms.

EVERYTHING IN Bathrooms

2021

The world is changing and we need to adapt to new circumstances. More connected than ever before and facing new challenges, in recent times we have had to transform our lifestyle, turning our homes into the main setting of our everyday existence.

At Roca we have devoted over one hundred years to meeting the needs of families in their bathroom spaces, and that commitment leads us to continue evolving together during this period of time in which our home reveals itself as essential.

In order to help you rediscover the enjoyment found in our daily lives, we would like to offer you everything you need to have the bathroom you wish for. Inspiration, ideas and tips for a more hygienic, more organized, more relaxing, more sophisticated and safer bathroom, always in line with your demands.

We also present solutions that will help you turn the bathroom into the only space in your home where health and wellbeing are combined. In these pages you will find products that prevent hand contact, materials and technologies that make cleaning easier and many solutions to easily renovate your bathroom.

Last but not least, we want you to remember the small pleasures and whims that make reality more pleasant. In this new issue of the "Everything in Bathrooms" magazine we encourage you to fill your bathroom with colored proposals and innovative designs that will stimulate your senses.

Aware of the importance of the here and now, we at Roca invite you to make the most of every minute to rediscover your bathroom and make it truly yours.

As part of its product development policy, Roca reserves the right to modify at any time and without prior notice, any of the models and elements described in this document. Roca therefore does not guarantee the availability of those products nor does it ensure that the specifications, colors, shapes and other reproduced features are identical to the real ones. The displayed settings are merely decorative, and no technical requirements have been taken into consideration while composing them. DISCOVER OUR **TOUCHLESS** BATHROOM SOLUTIONS

TOUCHLESS FAUCETS

Wash your hands without touching the faucet and don't worry about turning it off thanks to its automatic deactivation system.

EM1 FLUSHING MECHANISM

Transform your cistern with buttons into a touchless cistern that you can activate without touching anything.

TOUCHLESS OPERATING PLATES

Activate the WC flush by moving your hand in front of the plate or set up automatic activation after each use.

ELECTRONIC URINALS

Equipped with presence sensors, the flush is automatically activated after every use, like in the new Proton Rimless urinals.

PUBLIC ACCESSORIES

Use soap or hydroalcoholic gel and dry your hands with a simple contactless gesture.

Hygiene first

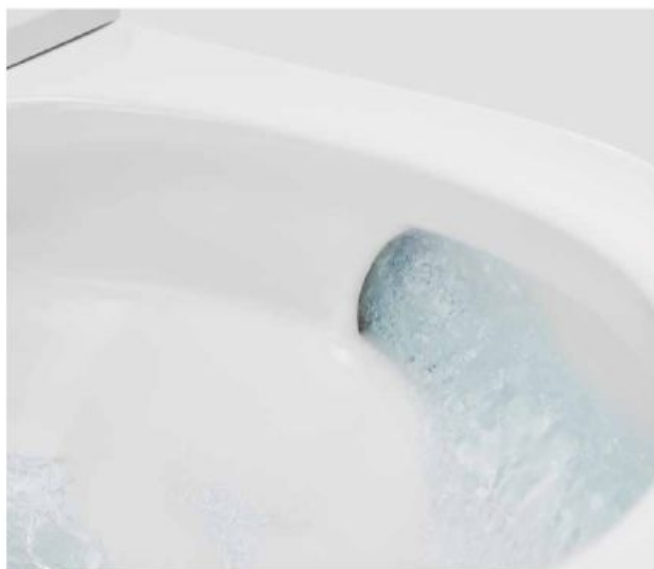

IN-WASH® IN-TANK®

MOVING ON. MOVING FORWARD.

If you had already joined the hygiene revolution with In-Wash®, the WC that cleans you with water, now Roca takes it a step further.

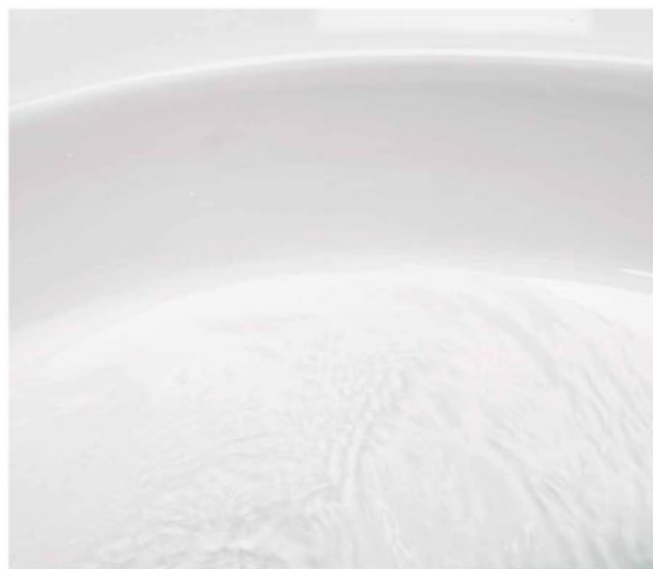

The new In-Wash® In-Tank® integrates the water tank into the bowl, an all-in-one solution that saves space, improves the aesthetics and simplifies installation and maintenance.

Optimum flush

The **Soft Air** flush technology and its **Rimless Vortex** design create the flow for optimum hygiene. Easier to clean and with minimum water consumption.

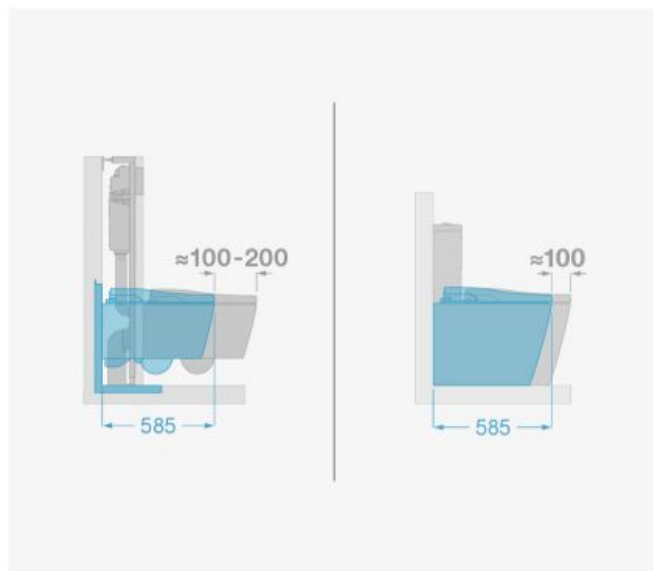

Non-stick surface

The inner surface of the bowl features the new **Supraglaze™** enamel, exclusive at Roca, which ensures a pore-free and extremely smooth surface and facilitates gliding for better hygiene.

Remote control

Control all In-Wash® functions with its practical and intuitive remote control. It features buttons for a full (4.5 liters) and half flush (3 liters) and can be attached to the wall with a bracket.

Saving of space

As it integrates the water tank into the bowl, In-Tank® allows you to gain up to 20 centimeters in your bathroom and remove the visual impact of the cistern.

IN-WASH®

THE WC THAT CLEANS YOU WITH WATER

93 % of the users who have tried it say they would not go back.
For this reason, In-Wash® is already a reality in thousands
of bathrooms all around the world.

Back to wall

Single floorstanding

Wall-hung

In-Tank®

In-Tank® wall-hung

Designed to fit perfectly into every bathroom

Its soft curves, simple geometry and installation free of visible cables make it a highly aesthetic solution, perfectly adaptable to the individual needs of people, regardless of their style.

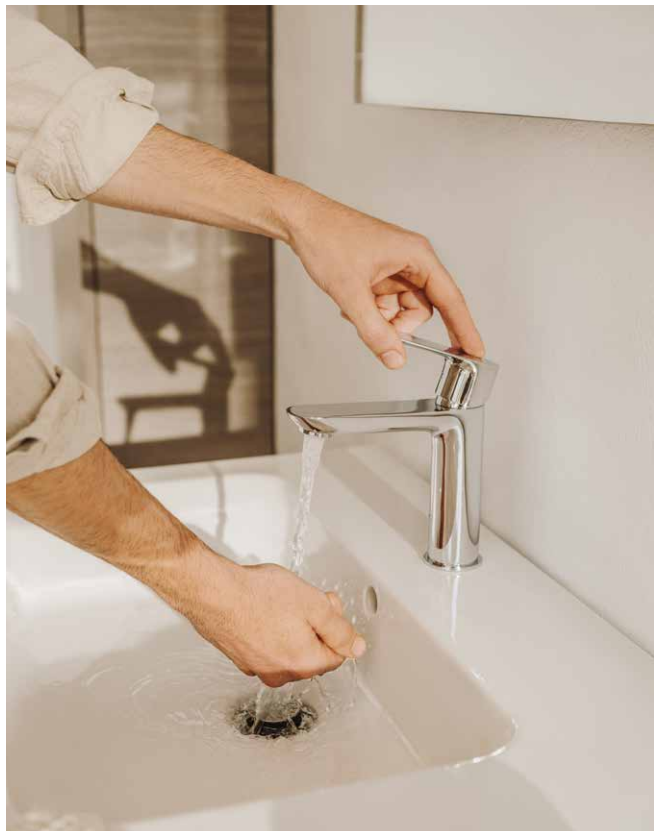

**A matter
of proportions**

CALA

SUSTAINABLE ELEGANCE

Fine lines

The body of this faucet is just 38 mm, a slim design that allows it to be installed anywhere.

Water saving

The integrated flow limiter (5l/min) adjusts the water flow to the absolute minimum for our daily use.

Energy saving

The Cold Start opening system prevents the unnecessary operation of the boiler.

PALS A UNIQUE IDENTITY

INSIGNIA URBAN VOCATION

NAIA
SOPHISTICATED NATURE

ALFA
THE SHAPE OF WATER

**Make your life
easier**

Rec 2

SENCERAMIC®

If we add an antislip texture to the extraordinary properties of vitreous china, the result is Senceramic®: the material with which we manufacture the **Cratos** shower trays, superslim, more hygienic, safer and easier to clean.

FINECERAMIC®

Extremely fine lines with a thickness of 5 mm and soft inner surfaces, basins manufactured in Fineceramic® are 40 % lighter and at the same time, 30 % more resistant than traditional ceramics.

RIMLESS BY ROCA

The channel that water flowed through in the WC has disappeared in Roca's new Rimless toilets: bowls without nooks or angles for easier and more efficient cleaning.

**Where everything
finds its place**

THE GAP TAILORED TO YOU

Some choose a furniture unit for its capacity, others for its dimensions or design. Regardless of your priorities, The Gap is the bathroom cabinet you were looking for.

Find your ideal option

A wide range of dimensions, different storage options, various installation types and basin positions to help you find the base unit that meets all your needs.

VICTORIA

NEUTRAL AND FUNCTIONAL

Simple and elegant design in a high-capacity furniture unit for those who seek functionality above all else. It is available with drawers or doors and in four timeless finishes.

BEYOND SOPHISTICATION

Avant-garde design, innovative materials and large dimensions
in a bathroom cabinet with a clear urban character.

Innovative materials

Fineceramic® or Surfex® basins and
compact quartz countertop.

Storage options

Choice of only drawers
or a combination of drawers
with a side door.

PRISMA

INTELLIGENT STORAGE

The perfect bathroom cabinet for those who need tidiness, balance and harmony around them.

Hidden drawer

Ideal to keep small objects safely stored.

Movable dividers

Essential for better content organization.

**The place
to be**

ALENA

The center of attention in your bathroom will be this oval and antislip bath in Surfex®, Roca's exclusive material with a pleasant soft and matt texture.

ARIANE

The sophistication of Stonex® is reaffirmed in this generous bath.
Reimagine the limits.

KAUAI

Exotic shapes sculpted in Stonex®.
Ideal to take you to remote paradises.

MAUI

Architectural design in Stonex®,
available with a square or rounded outline.

VYTHOS

Balanced lines shape a bath with a minimalistic design.
Perfect for both classic and contemporary interiors.

Round off your bath

Add grips to your Vythos bath to make access easier or a practical headrest for greater comfort.

Hydromassage

Both Vythos and other Roca baths offer optional hydromassage systems to enjoy the sensations of a spa at home.

SHOWER COLUMNS

For those who prefer to take a shower rather than a bath but do not want to give up maximum comfort or the benefits of hydromassage.

With hydromassage

The Essential, Evolution and Eternal columns feature hydromassage jets, cascade, shower-head and hand-shower for a full experience.

Thermostatic

Enjoy a shower at your ideal temperature by installing a thermostatic column with rainshower and hand-shower with adjustable height.

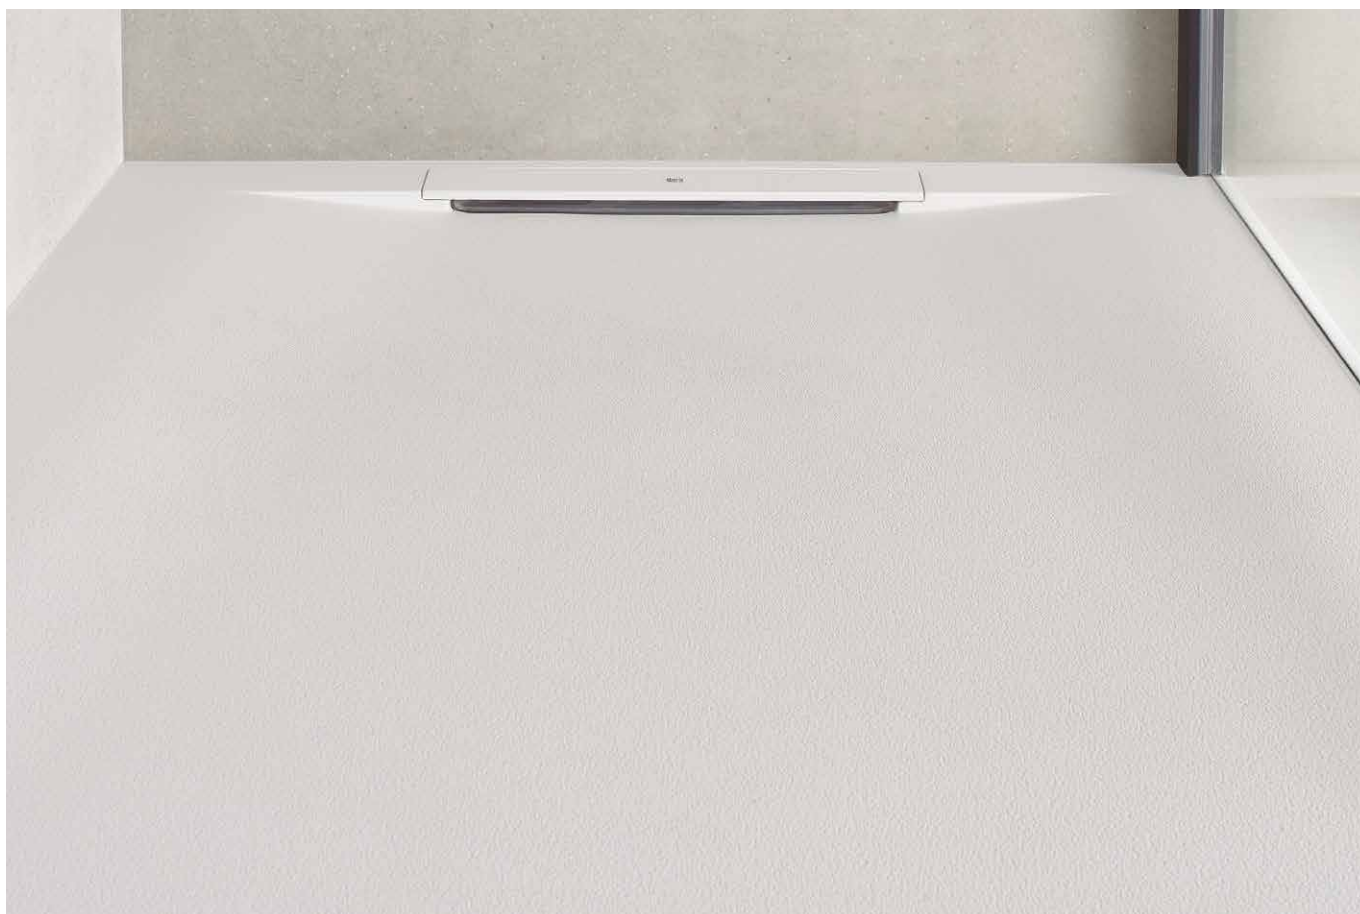

PYROS

THE NEW SHOWER TRAY IN STONEX®

All the benefits of Stonex® in a new design with integrated small-sized drain to make the most of the shower's surface.

Antislip

Textured surface that guarantees the highest antislip levels, while offering a very natural and pleasant sensation.

Antibacterial

Its outer layer provides the shower tray with antibacterial properties in compliance with the most demanding regulations.

Extraslim

Stylish design that enables a floor level installation, thereby facilitating its perfect integration in the shower area.

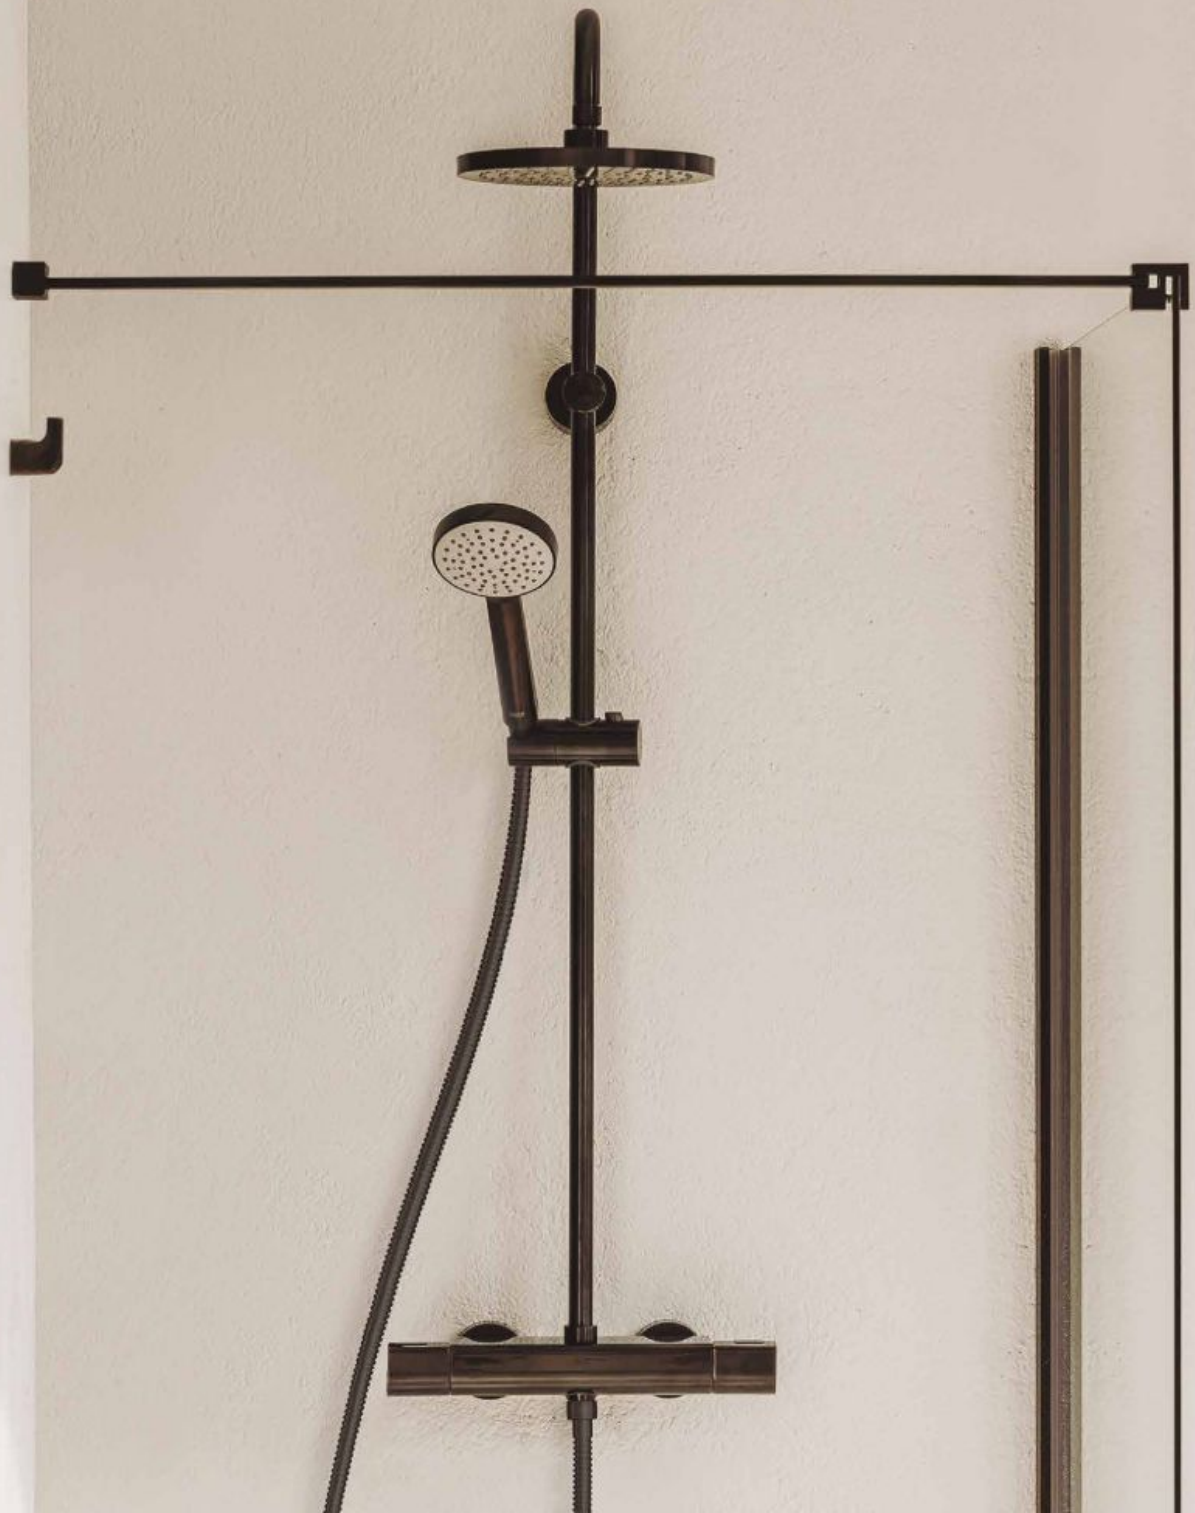

Color range

Available in 7 trendy finishes (White, Beige, Pearl, Coffee, Onyx, Slate and Black) that adapt to any interior design style.

Making new combinations

EVERLUX ROSE GOLD

EVERLASTING BLEND

The metallic attraction of Rose Gold combined with the calmness of Onyx.
The perfect mix to create a unique and glamorous atmosphere.

TITANIUM BLACK BALANCED CONTRAST

Sophistication to reveal the charm of shapes and permeate your bathroom with character.

BRUSHED TITANIUM BLACK HUMBLE DISTINCTION

Dare with a touch of personality to differentiate yourself from others.

COLOR YOUR BATH AS WELL...

Enjoy the elegant Surfex® finish, with a soft touch and matt texture, and an outer finish matching all vitreous china pieces in your bathroom.

PEARL

THE PERFECT MATCH

If you opt for sobriety and elegance, the Pearl finish will fit wonderfully into minimalistic atmospheres.

BEIGE

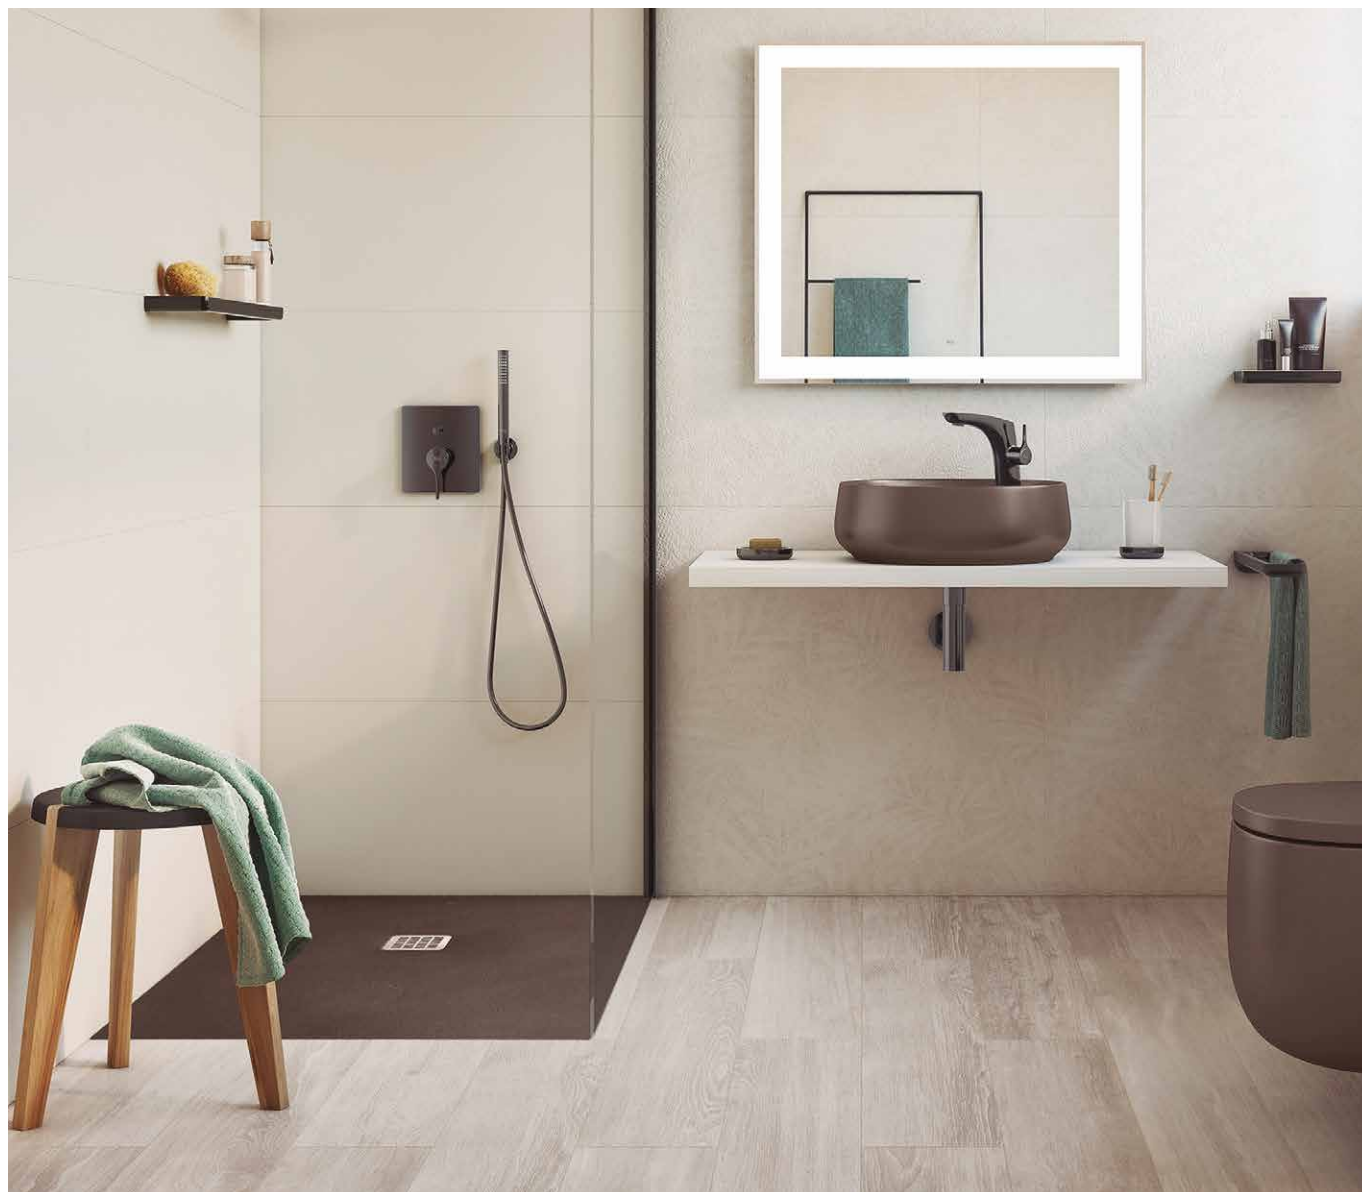

EASILY COMBINED

Certain finishes are considered all-rounders. Choose Beige to provide warmth and a natural look to your bathroom.

...AS YOUR SHOWER TRAY

Terran, Helios, Aquos or Pyros, our antislip and antibacterial shower trays in Stonex®, now matching your basin.

COFFEE

A CONTRAST EFFECT

If you wish to highlight your shower area while keeping a sober style, choose a finish like Coffee, which will enhance the space.

ONYX

A TOUCH OF EXCLUSIVITY

The Onyx finish guarantees timeless design, either in contrast with light floor tiles or matching dark hues.

BASINS

Ohtake

reddot award
best of the best

Ruy Ohtake is one of the most well-known and respected Brazilian architects in Brazil and in the world. Responsible for designing structures across the country and overseas with mastery and lots of personality. Ohtake's conceptual ideas can be recognized for their extreme sculptural forms and bold use of color, always creating a sense of surprise.

Smart Shower

Fully customizable

Tell the Smart Shower how you want your daily shower to be. Indicate the temperature, the flow rate and water outlets and it will save your preferences in your app's profile and make your life easier.

Self-cleaning

The Smart Shower has a cleaning program that activates all water outlets, releasing an intermittent high-pressure flow of water to remove lime and impurities, which build up in pipes and jets.

Intuitive use

Its capacitive technology and the ergonomic design of its rotating controls make the Smart Shower very user-friendly. Moreover, as its buttons light up when touched, its use is very intuitive, even for children or the elderly.

Ultrafine design

The control panel barely sticks out from the wall thanks to its 12 mm thick profile.

SHOWER TRAYS

Senceramic®

Antislip

Textured surface that guarantees the highest antislip levels, while offering a very natural sensation, pleasant to the touch.

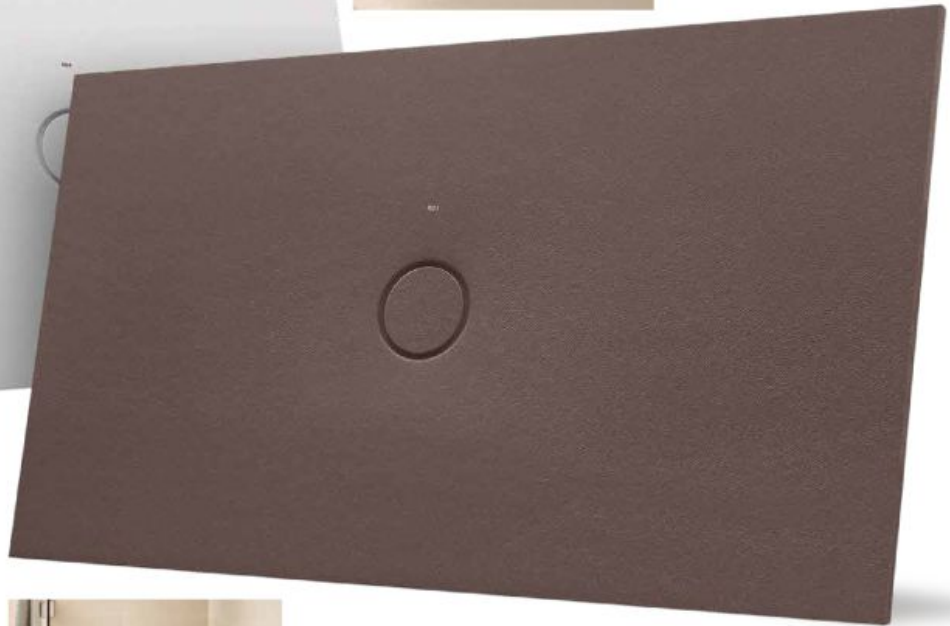

Easy cleaning

The zero porosity of vitreous china prevents the absorption of water and therefore, the buildup of humidity and bacteria.

Extraslim

Stylish design that allows its floor-levelled installation, thereby facilitating its perfect integration in the shower area.

Resistance

Vitreous enamel, exclusive at Roca, that ensures the stability of pieces against abrasive products, extreme temperatures or UV light.

Color range

Cratos is available in five exclusive colors: Matt white, Beige, Coffee, Pearl and Onyx.

Cratos

Height 3,5

190 x 80	140 x 70
180 x 70	120 x 80
160 x 80	120 x 70
160 x 70	100 x 80
140 x 80	100 x 70

Made-to-measure
available

With the cut-to-size option you can customize the dimension of your shower tray so that it perfectly fits into the available space.

Stonex[®]

Antibacterial

Its outer layer provides the shower tray with antibacterial properties in compliance with the most demanding regulations.

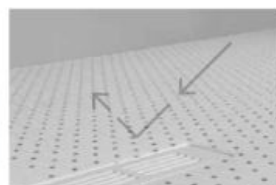

Antislip

Textured surface that ensures the highest antislip levels, while offering a very natural sensation, pleasant to the touch.

Cut-to-size

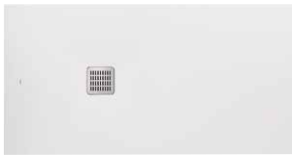

Easily adaptable to any kind of spaces thanks to its cut-to-size option.

Resistance

Its exclusive formula guarantees a high resistance to wear and tear, discoloration, chemical agents and UV light.

In&Out [®]

IN&OUT

The In&Out finish is the result of the R&D commitment of the Roca Group. The innovative manufacturing process to develop In&Out provides a surface that is both silky and antislip, reaching the maximum levels required by CTE, Class 3 for outdoors.

Biosafe [®]

Downtown Biosafe Blanco 60x120 cm

The innovative Biosafe Tile finish applied on the Downtown 60x120 range has highly antibacterial properties thanks to the complex research and technological development process applied in the production of our full body porcelain tiles.

The AINIA technological center, with 2,800 m² of analytical facilities that respond to various needs of the food industry and other related sectors, has verified the antimicrobial properties of the new porcelain tile by carrying out a test based on the ISO 22196 regulation, which determines the antibacterial capacity of non-porous surfaces.

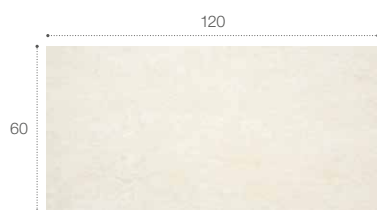

The active substances added to the enamel of the Downtown range are able to inhibit the growth of bacteria. This new development increases the degree of safety and trust in the ceramic material and is ideal for spaces that require additional hygiene.
